Oswald

It appears to have all started for this books purposes in 1951. At this time King George VI (once Prince Albert of York (I assert was "York-soil" in a decryption described elsewhere for "Blue Hydrangea) was being consumed by late stage lung caner, not revealed to the public. Since 1946 and long before Dean Rusk, the Rockefeller's, James Jesus Angleton, Wild Bill Donovan, and Dulles Brothers, the entire CIA and MI5 MI6 were working together in The Special Relationship between espionage agencies and following WWII even with Nazi are German scientists in aerospace and other fields including Ghelen and systems of covert warfare developed for use inside states where the State can deny acts it carries out via front groups of third parties, hiding the relationship the State has with those State backed actors.

Variously called Guerrilla Warfare, Subversion, PsyOps, Overthrows, the funneling of hidden support into warfare to tilt the scales secretly is this form of Government and can be use for economic or hemispherical purposes gaining control of nearby states that can secretly be turned around politically to support the USA as the divisions among sentiments of the people of complex states like Indonesia, Hawaii, or elsewhere have differing movements internally vying for control of the state as Soviet leaning, Independent, or Western.

In 1952 Dean Rusk (formerly of North Carolina where my mother was a hidden-identity bastard child of Australian Maria Augusta Kutschera) became head of the Rockefeller Fund, Richard Nixon was maneuvered on to the Vice President spot of the Eisenhower Grand Old Party (GOP) election ticket, winning in November 1952, and Lovett and others will rise to power under Esienhower Nixon supporting Executive Action (Regime Change) around the world as Eisenhower and Nixon are sworn in early 1952

In 1951 likely with Nixon and the Marshall plan in the background Grace Ranch disposes of its horses used for racing and betting so the site can become as Holt describes it "a secret CIA training area in Arizona."

George VI Illness and death

Ed Donegan asserts Sidney Gottlieb and others decided to start grooming "royal family" around the world creating a linking of Houses of Aristocracy of secret or known Title interbred with House of Windsor, the Pre WWII state of affairs.

The stress of the WWII had taken its toll on George's health, made worse by his heavy smoking, and subsequent development of lung cancer among other ailments, including arteriosclerosis and Buerger's disease. A planned tour of Australia and New Zealand was postponed after George developed an arterial blockage in his right leg, which threatened the loss of the leg and was treated with a right lumbar sympathectomy in March 1949.

His elder daughter and heir presumptive, Princess Elizabeth (daughter of the Queen Mother born Aug 4 who helped her husband Albert of York George V find speech coaches), took on more royal duties as her father's health deteriorated. The delayed tour was re-organised, with Princess Elizabeth (in 1952 Queen Elizibeth II) and her husband, the Greek Prince Philip, Duke of Edinburgh, taking the place of the King and Queen.

George was well enough to open the Festival of Britain in May 1951, but on 4 June it was announced that he would need immediate and complete rest for the next four weeks, despite the arrival of Haakon VII of Norway the following afternoon for an official visit.

On 23 September 1951, George VI underwent a surgical operation where his entire left lung was removed by Clement Price Thomas after a malignant tumour was found. In October 1951, Elizabeth and Philip went on a month-long tour of Canada; the trip had been delayed for a week due to George's illness. At the State Opening of Parliament in November, the Lord Chancellor, Lord Simonds, read the King's speech from the throne. The King's Christmas broadcast of 1951 was recorded in sections, and then edited together.

On Nov. 1, 1951, General Cabell was named director of the joint staff in the Office of the Joint Chiefs of Staff.

The director of the Joint Staff (DJS) is a three-star officer who assists the Joint Chiefs of Staff, a cabinet of senior military officers within the United States Armed Forces who advise the secretary of defense and the president on military matters. The director assists the chairman of the Joint Chiefs of Staff in managing the Joint Staff and with the management and organization of the staff's members. The director also chairs meetings of the Operations Deputies, a subsidiary body comprising the director and a three-star delegate from each service who preview or resolve issues before they are escalated to the four-star level of the Joint Chiefs of Staff.

The director of the Joint Staff is selected by the chairman of the Joint Chiefs of Staff, in consultation with the other members of the Joint Chiefs of Staff and subject to the approval of the secretary of defense. As with all three- and four-star positions, the director's appointment is subject to presidential nomination and Senate confirmation.

The position of director is considered one of the most desirable three-star positions in the United States military establishment, for the position has historically served as a stepping stone to a four-star position.[2] As of June 2022, 37 of the 48 past directors and one past acting director, have been promoted to four-star rank. Many of them have been promoted to four-star rank within a year of leaving the position.

Lieutenant General Cabell (whose brother Earle Cabell was mayor of Dallas at the time of the shooting) was sworn in as *deputy director of Central Intelligence on April 23, 1953*. Directors of CIA Rear Adm. Roscoe H. Hillenkoetter, USN May 1, 1947–Oct. 7, 1950, Gen. Walter Bedell Smith, USA Oct. 7, 1950–Feb. 9, 1953, ***Allen W. Dulles Feb. 26, 1953–Nov. 29, 1961***, John A. McCone Nov. 29, 1961–April 28, 1965, Vice Adm. William F. Raborn, Jr., USN April 28, 1965–June 30, 1966, Richard M. Helms June 30, 1966–Feb. 2, 1973, James R. Schlesinger Feb. 2, 1973–July 2, 1973, William E. Colby Sept. 4, 1973–Jan. 30, 1976, George H.W. Bush Jan. 30, 1976–Jan. 20, 1977

General Cabell was promoted to full general in 1958 and retired from active duty effective January 31, 1962. He wrote a commendation to Col Fletcher Prouty for his work between the CIA and US DOD facilitating plans like the plan to overthrow Indonesia starting planning in 1958 that I believe the Atsugi crew all were in on, the Donegan's included, Glorian and James, the Donegan family offered up under pressure a test child, that one being Barrack Obama Jr whose real birth is tied to the secret history of Glorian Donegan North Carolina, and orphan children with faked parents who might be planted where those same faked parents have established some form of roots overseas while working overseas.

Ed Donegan who (like his parents of 1952 and his whole family in Boston Marshfield area knew the Prouty's was born November 18 1961 in Los Angeles with JFK present for LA dinner and I think Obama was born there too and given phone on-paper parents who would have Indonesia ties.

Col Prouty (who likely was the officer my father flew under in 1952 Atsugi) wrote articles such as THE GUNS OF DALLAS published separately showing the CIA killed JFK and he also wrote INDONESIA 1958: NIXON, THE CIA, AND THE SECRET WAR showing from his own work the plan to overthrow Sukarno with Suharto and that plan underway in 1958 as Eisenhower signed off on it in 1957. This was one of the Secret Teams Secret Wars that used secret plants of US agents and assets in foreign nations under deep cover.

E. Howard Hunt was there in 1952 as well, moving from Mexico and I assert this entire team including Oswald were movers of chess pieces on The Devils Chessboard and that at two years old November 18 (Birth Certificate Los Angeles November 19) JKF objected to the go-head- to prep Obama Jr for insertion into Indonesia, and that is why JFK was assassinated. Dulles wanted Indonesia, the CIA did, just like they wanted Cuba.

My books are full of publicly available information that back my internal family history on this.

Air Force General Cabell was forced to resign as deputy director by President Kennedy on January 31, 1962, following the failure of the Bay of Pigs Invasion. Cabell's brother, Earle Cabell, was Mayor of Dallas when Kennedy visited that city and was assassinated, on November 22, 1963.

Earle Cabell 48th Mayor of Dallas In office May 1, 1961 – February 3, 1964 Member of the U.S. House of Representatives from Texas's 5th district In office January 3, 1965 – January 3, 1973

Allen Dulles and his entourage (and presumably the whole concept of The Devil's Chessboard by subversion of nations), including Deputy Director for Plans Richard M. Bissell Jr. and Deputy Director Charles Cabell, were forced to resign. On November 28, 1961, Kennedy presented Dulles with the National Security Medal at the CIA Headquarters in Langley, Virginia.[42] The next day, November 29, the White House released a resignation letter signed by Dulles.[43] He was replaced by John McCone..

Ed Donegan views this (as the fired personnel likely did) as a rebuke of the system of Subversion that was operating starting in 1951 and led to E. Howard Hunt and his wife Dorothy on their way to Atsugi Airbase in 1952 with the same cast of characters that will appear in 1963 at the assasination of JFK and later again in the Watergate break-in that Nixon was likely trying to cover up the 1963 activities he lead and the 1946 to 1960 activities he led under the Marshall Plan and MKULTRA in the Special Relationship with British intelligence and companies, robber barron companies..

All of this history left to us Chauncey Marvin Holt Self Portrait of a Scoundrel, in the St John Hunt books, and Jen Moore works and brought togeher here by the son of James and Glorian Donegan myself Edward Donegan explaining and uniting the sources that corroborate each other.

1952 remains interesting to us, flowing from 1951. As Princess Elizabeth, married to Greek Prince Phillip (Royal House had been deposed) the structures of a secret society with England can with the help of Glorian Donegan nee' Gainey of North Carolina and Ed Donegan and most importantly Jen Moore and some hints left in ghost written fiction can now be told.

J Edgar Hoover and LAPD were likely deeply involved in the operations. Three points on this. I always in any area of my life had respect for California and Los Angeles and Northern California world tech history. This includes LAPD and Los Angels FBI and now DHS as world grade port security and Asia Pacific intelligence hub and Defense Tech including Manhattan Project. J Edgar Hoover, Ian Flemming, were all up to this per Mike ROthmiller book Bombshell the night RFK killed Marilyn Monroe. Two is that this area of Southern California was not only a Propaganda capital, it was a CIA operation tied to Grace Ranch like areas of Nevada remote enough for CIA training and other operations. Frank Belcher operated out of Fullerton area University of Fullerton Bank funding Grace Ranch CIA activities. THis was also close to the Mob and Bugsy Siegel, etc., though he had been hit early on, Myers Lansky, Peter Licovoli and others in the same organization thrived in that area and others continuing on including in Florida with connections to Batista in the 1950's.

Princes Elizabeth becoming Queen Elizabeth II was the daughter of Queen Elisabeth I. Queen Elizabeth I was married to King George VI, Albert the Prince of York and in 1925 the Prince who gave a somewhat creepy sounding speech described as stuttering but not quite that.

The Uniformed -- Williams Air Force Base is a former United States Air Force (USAF) base, located in Maricopa County, Arizona, east of Chandler, and about 30 miles (48 km) southeast of Phoenix. It is a designated Superfund site due to a number of soil and groundwater contaminants.

It was active as a training base for both the United States Army Air Forces, as well as the USAF from 1941 until its closure in 1993. Williams was the leading pilot training facility of the USAF, supplying 25% of all pilots.

During March 1941, some citizens of Mesa, Arizona, were actively working on obtaining a U.S. Army Air Corps facility located near their city. One of the sites seriously considered for the new airfield was on the Gila River Indian Reservation located near Chandler, Arizona. At the time, the land on which Williams would eventually be built was vacant and not used for agriculture due to a lack of irrigation. It had no homes or farms and was essentially desert with a few Indian ruins scattered on it. On their own initiative, the city of Mesa began to acquire rights to the property that was divided among 33 different owners. Agreements were made for a railroad spur line, along with the appropriate electric, water, telephone and gas services.

And nearby was Grace Ranch Tuscon Arizona, CIA airbase and training facility, likely loading and unloading supplies and air craft from William Air Force Base and the US Army Air Force my father flew for and Prouty did to, and Marvin Holt was staring in but was discharged after a fight.

George Reynolds had a brother, whose name was Bob Reynolds. He was chief of station at JM/ Wave CH: He was a very high level CIA individual, employee. Besides, Frank Belcher was related to J.A. Belcher of J.A. Belcher Oil Company, had old time oil money from Texas. He also was known to be a CIA asset. Leroy Young, who happened to be his second in command, a weapons expert, helicopter pilot, soldier of fortune type, going to be in New Orleans

Now it comes to explaining 1952, the Berlin Wall, the Cold War, the H Bomb, and many other activities. As the face-off with the surviving Super Powers of WWII took place along the East and West Germany in Europe the satellites were important from an Aerospace perspective at least, and submarine bases, etc., as Dr Edward Teller father of the Atomic Bomb or H Bomb legend goes speculated submaries could carry a one megaton device and the total power of these weapons already astronomical was expanding beyond what Earth could survive.

A Cold war is preferable and on the remote I(from the United States in most ways) Island of Japan at Atsugi Air base and civilian airports under Col. Fletcher Prouty's command and with Jim Donegan there fighting in the Korean War and being a RECON pilot along with Lee Harvey Oswald tracking enemy craft and their own in the Polar Route area from Russia and the Troops and Armed Divisions route from China and Russia into Korea was the Russians were moving into during the Korean War in 1952.

Spartacus text describing the scene depiction is this:

…

In March I960, President Dwight Eisenhower of the United States approved a CIA plan to overthrow Castro. The plan involved a budget of $13 million to train "a paramilitary force outside Cuba for guerrilla action." The strategy was organized by Richard Bissell and Richard Helms. An estimated 400 CIA officers were employed full-time to carry out what became known as Operation Mongoose. Holt later claimed that he worked on this project with figures such as Sam Giancana, Johnny Roselli, Edward Lansdale and William Harvey.

After the failed Bay of Pigs invasion Holt worked for Meyer Lansky in California. Meyer took over the Los Angeles Stamp and Stationary Company where Holt continued to produce illegal documents and false police badges. He also worked closely with Phillip A. Twombly, a former Executive Vice President of Coca Cola for their Caribbean operations. Twombly now owned a bank in Fullerton, California, which was used to distribute CIA funds for covert operations.

Chauncey Holt was born in Kentucky on 23rd October, 1921. When he was 19 he joined the United States Army Airforce (USAAF). The following year he was court-martialed and sent to the U.S. penitentiary barracks at Fort Leavenworth, Kansas, for attacking another soldier with a Springfield rifle.

Holt was released in June 1940 but deserted from the USAF after the attack on Pearl Harbor. He eventually returned to duty but in 1942 he traveled in a car from Fort Knox to Louisville. He was arrested and charged with taking the car without permission and was sentenced to 18 months in the Industrial Reformatory at Chillicott, Ohio. On his release he found work with the Bethelem-Fairfield Shipyard Company.

After the war Holt met Peter Licavoli, a leading figure in the Mafia in Detroit. Holt was sent to Florida where he worked for Meyer Lansky as an accountant and pilot. This included several trips to Cuba where Lansky had extensive business interests. Lansky also sent Holt to worked for the International Rescue Committee (IRC). This was a Central Intelligence Agency controlled organization that had been set up to distribute funds to organizations attempting to overthrow left-wing governments. During the time Holt was also involved in producing forged documents for the CIA and the Mafia.

Holt also became involved in what later become known as Executive Action (a plan to remove unfriendly foreign leaders from power). This including a coup d'état that overthrew the Guatemalan government of Jacobo Arbenz in 1954 after he introduced land reforms and nationalized the United Fruit Company. However, the main target of this operation was Fidel Castro who had established a socialist government in Cuba.

[Ed Donegan asserts that the EARLIER interaction with Richard Bissle Jr. and others occured in 1952 as Russian Troops moved around the globe, and possibly into West Germany, during the Cold War that was breaking out. 11 years soon than 1963 James Donegan, Col Prouty, and Richard Bislle Jr and the Dulles Brothers VP Nixon Executive Action team were at the EARLIER (not Latin American) Soviet and Chinese expansion sites, the Iron Curtain draping over US allies, 1950's.

In August, 1963, Twombly asked Holt to travel to New Orleans, where he met Oswald and Carlos Bringuier.

Holt later claimed he was went to Dallas in November, 1963, with Charlie Nicoletti, James Canty and Leo Moceri. In Dallas he passed on forged documents and guns (with silencers) to Charles Harrelson and Charles Rogers (Richard Montoya). Holt was told that "an incident was going to be created which could be laid at the door of pro-Castro Cubans. The word attempted assassination was never used. We assumed that from all this light loaded ammunition that maybe somebody was going to try to take a shot from somewhere, probably the Dal-Tex building, or one of the buildings around there. But at no time was it ever intimidated to us that an assassination or attempted assassination on Kennedy." When the Kennedy motorcade reached the Dealey Plaza Holt was in the parking lot behind the Grassy Knoll. After the shooting took place Holt went to hide in a railroad car. He was joined by Charles Harrelson and Charles Rogers. However, soon afterwards, Dallas police officers entered the railroad car and arrested all three men. The picture is in 1963 or so, possibly 1962, I fail to research as I type here extemporeandiously, is a group of PsyOps covert operaters staging undercover Psychological Operations in view of the public.

The roles of the people are easy. Chauncey Marvin Holt (pilot to Meyers Lansky) is to the right, Lee Harvey Oswald (pilot Civil Air Patrol is there) George Reynolds is there (CIA assasinations operative) and his personal pilot and soldier of fortune is there with him Leroy Young. George Reynolds was the brother of Bob Reynolds, head of JM WAVE CIA overthrow team in Miami Florida.

Frank Belcher is there. He is the Banker who works for Phillip Twombly (CIA) a person like Clay Shaw who as a facet of doing business in the Caribbean (or Latin America) is privy to information about the foreign government officials they meet and work with, the local groups of workers and politicians, sentiments of foreign populations they encounter, business fronts that can be used to plant assets into foreign nations as employees of the front corporations, etc.,

Twobly as a CIA asset will use his own front corporations (no indications Cocacola directly) in Fullerton California and other locations to funnel funding to Murder Inc., and Casino and other mafia who can ALSO fly cargo planes into civil wars in other nations to tilt the battle TOWARDS the USA England desired outcomes.

Sometimes countries are destabalized perhaps by assasination leading to civil wars in a "strategy of tension" elminating peace activitists and putting in warring factions from EITHER SIDE such that when the war does break out the Western allegiance side will have overkill capabilities against Communist factions, that provided secretly by pilots like Chaucney Holt into countries while disuised as non US CIA flights.

In 1951 the Casinos and Gambling operation of Meyers Lanksy on Grace Ranch Tuscon Airzona became a CIA training and airplane modification facility funded through the CIA to Borb Reynolds then to Goerge Reynolds then to Twombly then the Frank Belcher and then to Meyers Lansky and Chauncey Holt, the Lansky accountant (who kept all the records and are in the appendix of his book).

The USE of the money was this. THe Fair Play For Cuba and Commie Party cards and fake badges and fake documents for CIA operations where used by Chauncey Marvin Holt under supervision from William King Harvey to create "Legends" (cover identities) the teams would operate under, such a team driving later from Tuscon to the Trainyard.

Most liklely this is or had intended to be something like Operation Northwood. A commie sympathizer Oswlad "fires from the clock-tower" (book depository) towards JFK with a lousy rifle. He misses but Cuba is blamed as threat to the USA. instead from the Trainyard someone DOES HIT JFK and Oswald is the patsy.

It is the Mob operating from the CIA PsyOps system under heavy control of General Edward Lansdale and General CD Douglas, both of whom Col FLether Prouty hates and blames and cites as the assasins identified in photos, Lansdale seen in the pictures the Hobos he does not name by name but as assains, and CD Jackson media friends, I think in one place he does mention CD JACkSON OSS CIA as part of the plan, in other cases Prouty just mentions others in the press by name who are part of the coverup and CIA freindly propoganda.

One of the British interests in this was out of wedlock bastard Windsor children allowed them to study their speech defect non-publicly and while doing so plant sleeper agents drawn from orphanages they were planted in for use around the world with their hidden identities explained to them in surrogate parents.

Some of these were drawn from Glorain Donegan DNA since she was one of these "bastard children." The trackablity of DNA now is a huge issue and coverups are being conducted of the why of the assasion of JFK who was against this though his father was a part of this.

Some of the later discovered roles (HSCA testimony based on findings from investigator Penn Jones Jr. was that Oswald was trying to buy cars very anonymously (at least one) by cash no names involved. ONe place he visited the sales person seems to have been assasinated (Penn Jones finding.) Holt will say in his book the Oldsmobile station wagon some of the CIA group traveld to the train yard to at Dealy Plaza was bought in a way it was untraceable. Lee Bowers in the two story trainyard booth did see the cars but he was assassinated as he talked to documentarain Mark Lane, but records of Lee Bowers statements reamin.

Lee Harvey Oswald tried to call North Carolian army intelligence and I think explain the Donegan and Astugi piece of this but the phone call was blocked and he was assasinated before being transfered from Earl Cabell's (Mayor of Dallas and brother of CHarles Cabell fired by JFK police jail into the County Jail.

Per Chauncey Holt they had a "clean" automobile that would not be traced back to them, an Oldsmoble station wagon. IT seems as part of that team Oswald was trying to buy cars, cash, that would not be traced back to him, he was trying not to use his name.

Here is known official corroborated all sides (car dealership, two employees, Holt, and others)

ANALYSIS OF REPORTS AND DATA BEARING ON CIRCUMSTANCES OF DEATH

OF TWENTY-ONE INDIVIDUALS CONNECTED WITH THE ASSASSINATION OF

PRESIDENT JOHN F. KENNEDY

CRS-5

DEATH #2

NAME: Albert Guy Bogard

ASSASSINATION CONNECTION: Albert Guy Bogard worked as an automobile salesman at Downtown Lincoln-Mercury in Dallas, Texas. Penn Jones, in volume II of FORGIVE MY GRIEF, states that:

> On Nov. 9, 1963 salesman Bogard showed a new Mercury automobile to a man using the name of Lee Oswald. The two took a demonstration drive with the prospect at the wheel.... The prospect said that he would not have the money for a couple of weeks, but he would then pay cash for the car. Bogard had to ask twice before the man said his name was Lee Oswald.
>
> We believe the men in this group who have met with either shooting or death were seeing a false Oswald."

DATE OF DEATH: Stated by Penn Jones to be February 14, 1966.

PLACE OF DEATH: Stated by Penn Jones to be Hallsville, Louisiana.

CIRCUMSTANCES OF DEATH: Penn Jones states in volume II of FORGIVE MY GRIEF, that Bogard had testified before the Warren Commission, and, according to Jones, he was found so badly beaten some time later that he required hospitalization. Bogard later left Dallas and returned to Louisiana, his home State. Jones states that:

> Bogard was from Hallsville, Louisiana. He was found dead in his car at the Hallsville Cemetery on St. Valentine's Day, 1966. A hose had been connected to the exhaust end and the other end inside the car with the windows up. The ruling was suicide.

The researcher was unable to locate any town in Louisiana of that name in any standard atlas of the United States. There is, however, a town of Halls Summit in Red River Parish, in northwestern Louisiana. This may be the location mentioned by Jones, as it is not far from Shreveport, the home of Bogard's wife. There is a Haynesville, Louisiana in Claiborne Parish. It also could be the Hallsville to which Jones refers.

CRS-6

The death of Albert Guy Bogard may warrant further investigation by the Committee in light of the fact of its circumstances. In addition, the site of his death should be determined for the sake of the accuracy of historical records.

JURISDICTION: Halls Summit is located in Red River Parish, Louisiana.

It is noteworthy in assessing the case against Oswald he was not captured at the scene of the crime, the book depository. He is tied to that location by his job and a rifle found there is tied to him by police, but he was not there, and thus the evidence is very indirect (circumatantial, the circumstances of his employment, alleged purchases, alleged other activities).

…

Lee Bowers was a Revealor. He said some people came in with an Oldsmobile station wagon and some other vehicles, looked around a bit, were out of place, and the station wagon was left behind. He also saw some flashes of light and the hobos being arrested from the train cars. Mr Ball questioned them and per Holt may have been in the back pocket of the CIA and tied to events leading up to the assassination. Holt said he left the Oldsmobile station wagon behind, key under it, Bowers testified the place was on lockdown after the shooting and the operators of the Station Wagon could not get it out.

…

I (Chauncey Marvin Holt) drove to the parking area behind Dealey Plaza, arriving there at approximately 9:30 a.m., after dropping off Nicoletti and Moceri at a hotel on Main Street, across the street from a strip joint.

Canty and I probed the area around the railroad tower, adjacent to the Dealey Plaza.

We did not see the pickup (Chevy) with the Texas plates, although we searched the entire area, including the area that was locked.

Not wanting to attract any unwelcome attention we left.

I then drove Joe Canty out to Red Bird Airport, where the Commanche, that had been left for us by either David Ferrie or Leroy Young(pilot worked for Geroge Reynalds) (CIA pilots), was tied down.

I then returned to the parking lot, next to the railroad yards, arriving there at approximately 11:30 a.m.

The pickup truck, with a camper shell, and the right Texas plates, was parked in the lot, with the front of the truck facing the railroad yards.

I placed the briefcase, containing the fake identification, in the truck. I parked the "souped up" Oldsmobile station wagon, containing several handguns and an extra set of identification papers in the name of John O'Malley, behind the stockade fence and wandered around the railroad yards.

I then strolled up to near the corner of Houston and Main street. Across the plaza, near the entrance to the Dal-Tex Building …

Q. Then what happened?

A. I called the Cabana where Eugene Brading and Morgan Brown were staying and asked to speak to Morgan Brown.

Q. Who was Morgan Brown?

A. A very unpredictable gunman from California. He was also the brother of Melvin Brown, who was one of Twombly's most trusted associates.

Q. Who was Eugene Brading?

A. An acquaintance who had offces in the same building that I did. He had recently changed his name to Jim Braden.

Brading or Braden was a close associate of Jerry Rosenthal, who, at that time, shared the suite of offces with us in Beverly Hills. We knew from Rosenthal that Braden was at the Cabana.

Q. Were you aware that Braden was detained for questioning as he was leaving the Dal-Tex building?

A. I saw the police talking to him but at the time, I didn't know any of the details.

Q. Were you aware that Braden was known to have organized crime connections?

A. Yes, I knew he was connected.

Q. Did you finally connect up with Braden?

A. Yes, when I first called the Cabana and asked for Morgan Brown, I was told he had checked out. I was advised that Braden had not checked out. I later called the Cabana and talked to Braden, who offered me a ride to Red Bird. I told him he was welcome to fly back to California with us but he declined and said that he had been flown from California in a private plane and was going to Houston and would be returning to Dallas in a few days. He took me to Red Bird and we parted company. The next time I saw him was, years later, in La Costa, California where we were neighbors.

Q. What happened next?

A. I called an agent by the name of Whitlock and told him the station wagon was in the Dealey Plaza parking lot and that there was a hide-a-key under the hood. I instructed him to pick up the vehicle, deliver the guns to Masen and call George Reynolds and tell him what happened.

Q. Do you know if he followed your instructions?

A. Yes, on Dec. 12, 1963 1 received a letter from George Reynolds in which he indicated that Michael Whitlock had picked up the vehicle, had delivered the guns to Masen and had driven the station wagon to Morgan City, La., where it was at the time the letter was written.

I subsequently sold the vehicle to Leroy Young. On Dec. 15, 1963, I sent Whitlock a check in the amount of $250.00 for his expenses in delivering the vehicle to Morgan City.

Dear Jack:

Tried to call you in Beverly Hills and in Tucson.....no luck.

The station wagon was picked up. Contents delivered to JM for trnshipment to MR.

Vehicle is now in Morgan City.You should arrange to have the vehicle picked up or the next trip that we make to Tucson we will deliver it. No problem.

Also, LY really likes that vehicle and I am sure he would buy it from you in case you want to get rid of it. That might be easier. Let me know.

I will be coming over to see GM in the near future; as soon as DB is available to be in town.

Take care.

Regards,

George

Letter from George Reynolds to Holt advising him that Holt's Oldsmobile station wagon has been picked up from behind the picked fence in Dealey Plaza. The initialed person JM is Dallas gunsmith John Masen, MR is Manuel Rodriguez (of the anti-Castro group Alpha 66) and GM is CIA agent Guy Main, based in Los Angeles. It is thus far unknown who is DB.

SUBSCRIBED AND SWORN TO BEFORE ME THIS 22 DAY OF November

Notary Public, Dallas Co

TESTIMONY OF LEE E. BOWERS, JR.

The testimony of Lee E. Bowers, Jr. was taken at 2 p.m., on April 2, 1964, in the office of the U.S. attorney, 301 Post Office Building, Bryan and Ervay Streets, Dallas, Tex., by Mr. Joseph A. Ball, assistant counsel of the President's Commission.

Mr. BALL also testifying. Will you stand and be sworn, Mr. Bowers?

Do you solemnly swear that the testimony you are about to give for this Commission will be the truth, the whole truth, and nothing but the truth, so help you God?

Mr. BOWERS. Yes, sir.

Mr. BALL. Will you state your name, please.

Mr. BOWERS. Lee E. Bowers, Jr.

Mr. BALL. And what is your residence address?

Mr. BOWERS. 10508 Maplegrove Lane.

Mr. BALL. Dallas, Tex.

Mr. BOWERS. Dallas.

Mr. BALL. And would you tell me something about yourself, where you were born, raised, and what has been your business, generally, or occupation?

Mr. BOWERS. I was born right here in Dallas, and lived here most of my life except when I was in the Nary. at the age of 17 to 21, and I was away 2 years going to Hardin Simmons University, also, attended Southern Methodist University 2 years, majoring in religion. I worked for the railroad 15 years and was a self-employed builder, as well as-on the side. And the first of this year when I went to work as business manager for Dr. Tim Green who operates this hospital and convalescent home and rent properties.

Mr. BALL. What railroad did you work for?

Mr. BOWERS. Worked for the Union Terminal Co. with the 8 participating railroads.

Mr. BALL. And on November 22, 1963, were you working for the Union Terminal Co. ?

Mr. BOWERS. Yes.

Mr. BALL. What kind of work were you doing for them?

Mr BOWERS. I was tower man in the north tower, Union Terminal, operating the switches and signals controlling the movement of trains.

Mr. BALL. Through railroad yards?

Mr. BOWERS. Yes.

Mr. BALL. What were your hours of work?

Mr. BOWERS. 7 to 3 p.m., Monday through Friday.

Mr. BALL. Now, do you remember what is the height of-above the ground at which you worked in the tower?

Mr. BOWERS. It is second story, it is 14 feet, 12 or 14 feet.

Mr. BALL. You worked about 14 feet above the ground?

Mr. Bownati. Yes.

Mr. BALL. And the tower was arranged so that you could see out?

Mr. BOWERS. Yes; it is windows except for posts that-posts on each corner. It is windows on all four sides.

p. 284

Mr. BALL. Where is that located with reference to the corner of Elm and Houston ?

Mr. BOWERS. It is west and north of this corner, and as to distances, I really don't know. It is within 50 yards of the back of the School Depository Building, or less.

Mr. BALL. Did you say that it is built on higher ground, the base of the tower on higher ground than around Houston and Elm?

Mr. BOWERS. Approximately the same.

Mr. BALL. Same? It is higher ground than Elm as it recedes down under the triple underpass?

Mr. BOWERS. Yes, sir ; considerably.

Mr. BALL. And the base of your tower is about the same height as the triple underpass, isn't it?

Mr. BOWERS. Approximately.

Mr. BALL. Now, can you tell me why you refer to that as a triple underpass? In our conversation here before you were sworn your description-you described it as a triple underpass.

Mr. BOWERS. It is just a local connotation for it since there are three streets that run under it.

Mr. BALL. I see. And how many sets of tracks do you control from your tower?

Mr. BOWERS. There are about 11 tracks in the station and 2 freight tracks.

Mr. BALL. That would be 13 tracks that is, the tracks altogether, that pass in front of your tower?

Mr. BOWERS. Yes; of course where the tracks converge and cross and split off to various railroad yardsMr. BALL. And the tracks are to the north and west of your tower, aren't they?

Mr. BOWERS. Well, the tracks are west, but they proceed in all directions, I mean, they are both north and south.

Mr. BALL. Now, you were on duty on November 22, 1963, weren't you? Mr. BOWERS. That's correct.

Mr. BALL. Close to noon, did you make any observation of the area around between your tower and Elm Street?

Mr. BOWERS. Yes; because of the fact that the area had been covered by police for some 2 hours. Since approximately 10 o'clock in the morning traffic had been cut off into the area so that anyone moving around could actually be observed. Since I had worked there for a number of years I was familiar with most of the people who came in and out of the area.

Mr. BALL. Did you notice any cars around there?

Mr. BOWERS. Yes; there were three cars that came in during the time from around noon until the time of the shooting.

Mr. BALL. Came in where?

Mr. BOWERS. They came into the vicinity of the tom-er, which was at the extension of Wm Street, which runs in front of the School Depository, and which there is no way out. It is not a through street to anywhere.

Mr. BALL. There is parking area behind the School Depository, between that building and your tower?

Mr. BOWERS. Two or three railroad tracks and a small amount of parking area for the employees.

Mr. BALL. And the first came along that you noticed about what time of day?

Mr. BOWERS. I do not recall the exact time, but I believe this was approximately 12:10, wouldn't be too far off.

Mr. BALL. And the car you noticed, when you noticed the car, where was it?

Mr. BOWERS. The car proceeded in front of the School Depository down across 2 or 3 tracks and circled the area in front of the tower, and to the west of the tower, and, as if he was searching for a way out, or was checking the area, and then proceeded back through the only way he could, the same outlet he came into. Mr. BALL. The place where Elm dead ends?

Mr. Bow=. That's right. Back in front of the School Depository was the only way he could get out. And I lost sight of him, I couldn't watch him.

pp.285

Mr. BALL. What was the description of that car?

Mr. BOWERS. The first car was a lg.59 Oldsmobile, blue and white st,ation wagon with out-of-State license.

Mr. BALL. Do you know what State?

Mr. BOXJERS. No; I do not. I would know it, I could identify it, I think, if I looked at a list.

Air. BALL. And, it had something else, some bumper stickers?

Mr. BOWERS. Had a bumper sticker, one of which was a Goldwater sticker, and the other of which was of some scenic location, I think.

Mr. BALL. And, did you see another car?

Mr. BOXERS. Yes, some 16 minutes or so after this, at approximately 12 o'clock, 20 to 12-I guess 12 :20 would be close to it, little time differential therebut there was another car which was a 1957 black Ford, with one male in it that seemed to have a mike or telephone or something that gave the appearance of that at least.

Mr. BALL. How could you tell that?

Mr. BOWERS. He was holding something up to his mouth with one hand and he was driving with the other, and gave that appearance. He was very close to the tower. I could see him as he proceeded around the area.

Mr. BALL. What kind of license did that have?

Mr. BOWEKS. Had a Texas license.

Mr. BALL. What did it do as it came into the area, from what street?

Mr. BOWERS. Came in from the extension of Elm Street, in front of the School Depository.

Mr. BALL. Did you see it leave?

Mr. BOWERS. Yes: after 3 or 4 minutes cruising around the area it departed the same way. He did probe a little further into the area than the first car.

Mr. BALL. Did you see another car?

Mr. BOWERS. Third car, which entered the area, which was some seven or nine minutes before the shooting, I believe was a 1961 or X%2 Chevrolet, fourdoor Impala, white, showed signs of being on the road. It was muddy up to the windows, bore a similar out-of-state license to the first car I observed, occupied also by one white male.

Mr. BALL. What did it do?

Mr. BOXERS. He spent a little more t,ime in the area. He tried--he circled the area and probed one spot right at the tower in an attempt to get and was forced to back out some considerable distance, and slowly cruised down back towards the front of the School Depository Building.

Mr. BALL. Then did he leave?

Mr. BOWERS. The last I saw of him he was pausing just about in-just above the assassination site.

Mr. BALL. Did the car park, or continue on or did you notice?

Mr. BOWERS. Whether it continued on at that very moment or whether it pulled up only a short distance, I couldn't tell. I was busy.

Mr. BALL. How long was this before the L'residennt's car passed there?

Mr. BOWERS. This last car? About 8 minutes.

Mr. BALL. Were you in a position where you could see the corner of Elm and Houston from the tower?

Mr. BOWERS. No; I could not see the corner of Elm and Houston. I could see the corner of Main and Houston as they came down and turned on, then I couldn't see it for about half a block, and after they passed the corner of Elm and Houston the car came in sight again.

Mr. BALL. You saw the President's car coming out the Houston Street from

Main, did you?

Mr. BOWERS. Yes ; I saw that.

Mr. BALL. Then you lost sight of it?

Mr. BOWERS. Right. For a moment.

Mr. BALL. Then you saw it again where?

Mr. BOWF,RS. It came in sight after it had turned the corner of Elm and Houston.

Mr. BALL. Did you hear anything?

pp. 286

Mr. Bowsas. I heard three shots. One, then a slight pause, then two very close together. Also reverberation from the shots.

Mr. BILL. And were you able to form an opinion as to the source of the sound or what direction it came from, I mean?

Mr. BOWERS. The sounds came either from up against the School Depository Building or near the mouth of the triple underpass.

Mr. BALL. Were you able to tell which?

Mr. Bowsas. No; I could not.

Mr. BALL. Well, now, had you had any experience before being in the tower as to sounds coming from those various places?

Mr. BOWERS. Yes; I had worked this same tower for some 10 or 12 years, and was there during the time they were renovating the School Depository Building, and had noticed at that time the similarity of sounds occurring in either of those two locations.

Mr. BALL Can you tell me now whether or not it came, the sounds you heard, the three shots came from the direction of the Depository Building or the triple underpass?

Mr. BOWERS. No ; I could not.

Mr. BALL. From your experience there, previous experience there in hearing sounds that originated at the Texas School Book Depository Building, did you notice that sometimes those sounds seem to come from the triple underpass? Is that what you told me a moment ago?

Mr. BOWERS. There is a similarity of sound, because there is a reverberation which takes place from either location.

Mr. BALL. Had you heard sounds originating near the triple underpass before?

Mr. BOWERS. Yes ; quite often.

Because trucks backfire and various occurrences.

Mr. BALL. And you had heard noises originating from the Texas School Depository when they were building there?

Mr. BOWERS. They were renovating. I-did carpenter work as well as sandblasted the outside of the building.

Mr. BALL. Now, were there any people standing on the high side-high ground between your tower and where Elm Street goes down under the underpass toward the mouth of the underpass?

Mr. BOWERS. Directly in line, towards the mouth of the underpass, there were two men. One man, middle-aged, or slightIy older, fairly heavy-set, in a white shirt, fairly dark trousers. Another younger man, about mid-twenties, in either a plaid shirt or plaid coat or jacket.

Mr. BALL. Were they standing together or standing separately?

Mr. BOWERS. They were standing within 10 or 15 feet of each other, and gave no appearance of being together, as far as I knew.

Mr. BALL. In what direction were they facing?

Mr. BOWERS. They were facing and looking up towards Main and Houston, and following the caravan as it came down.

Mr. BALL. Did you see anyone standing on the triple underpass?

Mr. BOWERS. On the triple underpass, there were two policemen. One facing each direction, both east and west. There was one railroad employee, a signal man there with the Union Terminal Co., and two welders that worked for the Fort Worth Welding firm, and there was also a laborer's assistant furnished by the railroad to these welders.

Mr. BALL. You saw those before the President came by, you saw those people?

Mr. BOWERS. Yes; they were there before and after.

Mr. BALL. And were they standing on the triple underpass?

Mr. BOWERS. Yes; they were standing on top of it facing towards Houston Street, all except, of course, the one policeman on the west side.

Mr. BALL. Did you see any other people up on this high ground?

Mr. BOWERS. There were one or two people in the area. Not in this same vicinity. One of them was a parking lot attendant that operates a parking lot there. One or two. Each had uniforms similar to those custodians at the courthouse. But they were some distance back, just a slight distance back. Mr. BALL. When you heard the sound, which way were you looking?

pp. 287

Mr. BOXERS. At the moment I heard the sound, I war looking directly towards the area-at the moment of the first shot, as close as my recollection serves, the car was out of sight behind this decorative masonry wall in the area.

Mr. BILL. And when you heard the second and third shot, could you see the car?

Mr. BOWERS. No; at the moment of the shots, I could-1 do not think that it was in sight. It came in sight immediately followlng the last shot.

Mr. BALL. Did you see any activity in this high ground above Elm after the shot? Mr. BOWERS. At the time of the shooting there seemed to be some commotion, and immediately following there w!as a motorcycle policeman who shot nearly all of the way to the top of the incline.

Mr. BALL. On his motorcycle?

Mr. BOWERS. Yes.

Mr. BALL. Did he come by way of Elm Street?

Mr. BOXERS. He was part of the motorcade and had left it for some reason, which I did not know.

Mr. BALL. He came ulz+---

Mr. BOXERS. He came almost to the top and I believe abandoned his motorcycle for a moment and then got on it and proceeded, I don't know.

Mr. BALL. How did he get up?

Mr. BOWERS. He just shot up over the curb and up.

Mr. BALL. He didn't come then by way of Elm, which dead ends there?

Mr. BOWERS. No; he left the motorcade and came up the incline on the motorcycle.

Mr. BALL. Was his motorcycle directed toward any particular people?

Mr. BOWERS. He came up into this area where there are some trees, and where I had described the two men were in the general vicinity of this.

Mr. BALL. Were the two men there at the time? Mr. BOWERS. I-as far as I know, one of them was. The other I could not say.

The darker dressed man was too hard to distinguish from the trees. The one in the white shirt, yes ; I think he was.

Mr. BALL. When you said there was a commotion, what do you mean by that? What did it look like to you when you were looking at the commotiOIl?

Mr. BOWERS. I just am unable to describe rather than it was something out of the ordinary, a sort of milling around, but something occurred in this particular spot which was out of the ordinary, which attracted my eye for some reason, which I could not identify.

Mr. BALL. You couldn't describe it?

Mr. BOXERS. Nothing that I could pinpoint as having happened thatMr. BALL. Afterwards did a good many people come up there on this high ground at the tower?

Mr. BOWERS. A large number of people came, more than one direction. one group converged from the corner of Elm and Houston, and came down the extension of Elm and came into the high ground, and another line-another large group went across the triangular area between Houston and Elm and then across Elm and then up the incline. Some of them all the way up. Many of them did, as well as, of course, between 50 and a hundred policemen within a maximum of 5 minutes.

Mr. BALL. In this area around your tower?

Mr. BOWERS. That's right. Sealed off the area, and I held off the trains until they could be examined, and there was some transients taken on at least one train

Mr. BALL. I believe you have talked this over with me before your deposition was taken, haven't we?

Mr. BOWERS. Yes.

Mr. BALL. Is there anything that you told me that I haven't asked you about that you think of?

Mr. BOWERS. Nothing that I can recall.

Mr. BALL. You have told me all that you know about this, haven't you?

pp. 288

Mr. BOWERB. Yes; I believe that I have related everything which I have told the city police, and also told to the FBI.

Mr. BALL. And everything you told me before we started taking the deposition?

Mr. BOWERS. To my knowledge I can remember nothing else.

Mr. BALL. Now, this will be reduced to writing, and you can sign it, look it over and sign it, or waive your signature if you wish. What do you wish?

Mr. BOWERS. I have no reason to sign it unless you want me to.

Mr. BALL. Would you just as leave waive the signature?

Mr. BOWERS. Fine.

Mr. BALL. Then we thank you very much.

Edward Donegan Fletcher Prouty St John Hunt expose press (Chapter)

After I was evicted from my home office at 1513 Ocean Dr. Corpus Christi as I began writing about history (military and CIA) of the Burns family (today's CIA) I had computer. I started using my old Wordpress Blog and they day I renamed it to Targeted Manhattan Project Victim and started naming names a series of attack started and I emailed the log of the change of name of the blog and reported the attacks to ARC of NOVA. Later, months later, I bought a PC notebook and was attacked that day by a person not arrested for the attack. Following that a few days later a homeless person in Austin Central Public Library fell on top of my computer with a large backpack as my notebook was open and the notebook miraculously survived but I wast told be security I was being evicted from the library. I pointed out I had done nothing at all, I had simply turned the other cheek on that provocation and I was not evicted most likely for seeming to be a fighter.

I am now back to the epubs using thumb drive portable version and my PC. I continue the combined story of St John Hunt and Ed DOnegan and in an upcoming chapter https://wordpress.com/home/targetedmanhattanprojectvictim.wordpress.com not there but in this book The Pain Love and Broken HOpes of James Donegan I will theorize about how this all fits together, the summary is James married and was in love with a Maria Kutschera child Glorian Gainey, she was tied to Franz Kutschera, a child bastard child of the Windsors via Maria Kutschera (The Prince and the Showgirl theme Marilyn Monroe also had Borderline.)

Under pressure they the Donegan's allowed eggs from her to be CIA fertilized watching various outcomes of various sperm fertilized matched IVFs and I had failed certain tests very young but the CIA chose others to groom. They included at least Barrack Obama JR as part of CIA plans to insert children "born" in other countries like Kenya though actually born in CIA labs and orphanages later planted around the world.

My father gave me every possible bit of opportunity but as an immature drug addict loser he could not take it anymore.

I assert that JFK did not like how the Donegan's were treated as I flunked tests and Obama Jr passed them, ariving at 2 year old.

Dorothy Hunt holding St John Hunt, E. Howard Hunt child

I've (St. John Hunt) done some research on my fathers CIA activities in Japan and found very little.

DOROTHY, "AN AMORAL AND DANGEROUS WOMAN": THE MURDER OF ... Aa

Early 1954: Dorothy and St. John, Washington, D.C.

Chapter Nine

Tokyo, 1954

I was born in March of 1954 and remained nameless for several weeks. My earliest recollections of life

I (St. John Hunt) understand from conversations with him (E. Howard Hunt later a Hobo with Chauncey Marvin Holt and Charles Harrelson) that he was in Japan to facilitate the U-2 Spy plane missions at the Atsugi Air base.

Coincidentally this was the same location where Lee Harvey Oswald was serving as a radar operator. This little known fact is one of many reasons that conspiracy investigators have so many leads to investigate.

Is the fact that Hunt and Oswald were in Japan and Atsugi at the same time a coincidence? Certainly Oswald was no dummy as the press has for years tried to make us believe. A man with the level of security clearance needed to work as a radar operator monitoring the U-2 top secret flights is a man with intelligence. In addition, he was studying Russian as part of the false defector program. Oswald's army buddies recall that he spent hours reading his Russian language text aloud, much to the annoyance of everyone.

We know from Chauncey Holt photos Lee Harvey Oswald also at Dealy Plaza along with the Hobos and Lansdale and Bush was working with Holt, Harrelson, and Hunt who confessed to the assassination. Jim Donegan was there in Japan as well and Lee Harvey Oswald last attempted phone call was to North Carolina and follwing his arrest he was saying "Nazis" (according to Jim Garrison on a surviving tape 5 of his prosecution team work) were in North Carolina per US Army intelligence. Glorian Gainey Hidden Identity per me and Jen Moore OSS CIA history]]

If Hunt went to Atsugi, it's probable that he may have evaluated Oswald for future use. How much did Dorothy know of Howard's activities? She was his right hand, his strength, and as she told me later, his sounding board.

In 1952 JFK and Jackie will marry, James and Glorian Donegan will marry, E. Howard Hunt and Dorothy Hunt will marry, I think after living with Prouty and others at the CIA operation in Japan were they were all stationed.

E. Howard Hunt became the OPC Station Chief in Mexico City in 1950, and recruited and supervised William F. Buckley Jr., who worked under Hunt in his OPC Station in Mexico during the period 1951–1952. Buckley and Hunt remained lifelong friends, and Buckley became godfather to Hunt's first three children. -Wikipedia

The Office of Policy Coordination (OPC) was the covert operation wing of the United States Central Intelligence Agency (CIA). Created as a department of the CIA in 1948, it actually operated independently until October 1950. OPC existed until 1 August 1952, when it was merged with the Office of Special Operations (OSO run by Prouty along with General Edward Lansdale) to form the Directorate of Plans (DDP).

Chapter 9 of book Dorothy: Picture Early 1954: Dorothy and St. John, Washington, D.C. Tokyo, 1954. I (St. John Hunt) was born in March of 1954 and remained nameless for several weeks. My earliest recollections of life are from Japan. I was the first born son and treated as a little god.

I assert the Donegan Oswald RECON story is at Atsugi RECON base my father flew out of during the Korean War 1952 and as pursuit pilot chasing bogies from the polar route of RUSSIA.

Col Prouty was close to Buckley and ghost wrote political articles for him.

Howard Hunt, James Donegan (my father) and Prouty were stationed in Japan as a CIA operation with the USAF formly the US Army Air Force.

Post WII service

After the war, Prouty accepted an assignment from the U.S. Army in September 1945 to inaugurate the ROTC program at Yale University, where he also taught during each scholastic year from 1946 to 1948. This timeline intersects with the years that George Bush and William F. Buckley, Jr. also spent at Yale. Prouty fondly recalled Buckley at that time in his role as editor of the Yale Daily News, and Prouty later told an interviewer in 1989 that he had written for Buckley on several occasions.

In 1950 he transferred to Colorado Springs to build Air Defense Command. From 1952 to 1954 he was assigned to Korean War duties in Japan, where he served as Military Manager for Tokyo International Airport (Haneda) during the post-war U.S. occupation.

In 1955 he was assigned to the coordination of operations between the fledgling U.S. Air Force and the CIA. As a result of a CIA commendation for this work he was awarded the Legion of Merit by the U.S. Air Force, promoted to colonel, and assigned to the Office of the Secretary of Defense.[citation needed]

Following the creation of the Defense Intelligence Agency and termination of the OSO [predecessor to the DIA Prouty was assigned to create the Defense Intelligence Agency] by Secretary Robert McNamara, Prouty was transferred to the Office of the Joint Chiefs of Staff and charged with the creation a similar organization (that being the Defense Intelligence Agency on a global scale (that would study world regimes and plan overthrows of potentially problematic nations.)

The Kennedy Administration plan was to create a military run operation that not only paralleled but took over formerly CIA operations. Lansdale though was a CIA flunky tied to General CD Jackson and others of the CIA. Coordination with the CIA would always occur but the DIA was huge in comparison to the CIA and JM Wave with Robert Kennedy in charge "augmented" the formerly independent CIA control of cover operations.

When I did not have authoring software I used an old blog on Wordpress to continue writing.

St John Hunt is the son of E. Howard Hunt and in an alleged confession to St John Hunt E. Howard Hunt makes a partially recorded death bed confession to the assassination of JFK.

That fits most data collected at the time and stories emerging since the assassination, and that also leads into a CIA on the suspect list for other Kennedy family assassinations as need the Kennedy family silenced in matters RFK or others knew about or partially knew about.

Ed Donegan (myself) assert the theories Barrack Obama Jr was planned by the CIA even before he was born and he was for a while as a newborn in the Kennedy Administration White House probably held by Donald Barr and probably Knudson, Barr, JFK, RFK, Ted Ted Kennedy, and others saw Barrack Obama Jr as a newborn.

Most Kennedy's would likely die before they knew what that would mean to later developments in US politics.

I am continuing to write to tell how the Donegan story, me the son of James and Glorian Donegan, could explain and support that theory.

Personas Dramaticas

James Jesus Anglteon, A Associate CIA Director with Portfolio, handling internal espionage relationships. Schooled in an English boarding school had strong pro English espionage tendencies. Cord Myers wife and Cord Myers very far left. Began to believe Angleton was paranoid. Mary Pinchot Meyer like Doroty Hunt may have been assassinated by Angleton or other CIA (Burns family, Mueller II, or British)

Charles Cabell. Cabell set up Project Grudge to "make a study reviewing the UFO (Aliens aka Free Masonary and British NWO) situation for AF HQ." However, Grudge quickly became all but moribund, while simultaneously reporting that all UFO cases were being closely investigated. When Charles Cabell learned of this, he ordered Grudge dissolved and ordered that the "open minded"[4] Project Blue Book be created.

He held this director of Air Force Intelligence post until 1951, before being made director of the staff for the Joint Chiefs of Staff from November 1951 to 1953. During this time, he was promoted to lieutenant general.[citation needed] In 1952, he was an enthusiastic promoter of the U-2 spy plane, along with Allen Welsh Dulles and John Foster Dulles.

CIA career - On April 23, 1953, while still an active air force officer, he was appointed Deputy Director of the CIA under Allen Dulles. In 1956, along with the CIA's Richard Bissell, he flew to Bonn, to brief the West German Chancellor, Konrad Adenauer, on the ultra-secret U-2 spy plane. Cabell personally negotiated with Chancellor Adenauer for permission to station the U-2 in Wiesbaden and from there to fly over the Soviet Union illegally. It was the U-2 program that allowed CIA chief Allen Dulles to sabotage the peace summit between Khrushchev and Eisenhower.

Charles Cabell was promoted to full general in 1958[6] and retired from active duty effective January 31, 1962.

Cabell was forced to resign as deputy director by President Kennedy on January 31, 1962, following the failure of the Bay of Pigs Invasion.[8] Cabell's brother, Earle Cabell, was Mayor of Dallas when Kennedy visited that city and was assassinated, on November 22, 1963.

Col Prouty Was A Revealor

In the 1950's he was part of Air Defense from Russia and elsewhere, dispatching pilots like James Paul Donegan with Lee Harvey Oswald at the RADAR screen to the Polar Route airspace with Russia and to watch Communist forces by RECON in Russia and Korea.

By 1955 he was as he put it "ordered to create the Air Defense Command" for all of the USA, as the US Army Air Corp / US Army Air Force became the new US Air Force and was being fitted out with its new departments and the CIA was doing the same as the OSO became the Defense Intelligence Agency, also stood-up by Col Prouty,

He was assinged as CIA to Japan in 1952 including Military Manager of the main airport and continuing RECON and other activities in Atsugi including Air Defense CIA base intercepting Russian Migs, later promoted to global CIA inteligence operations.

Col Prouty wrote Guns of Dallas and Nixon and Indonesia, two truthful and previously unconnected articles on the CIA that are included here.

L. Fletcher Prouty (1917–2001), a retired colonel of the U.S. Air Force, served as the chief of special operations for the Joint Chiefs of Staff during the Kennedy years. He was directly in charge of the global system designed to provide military support for the clandestine activities of the CIA. He was the author of JFK: The CIA, Vietnam, and the Plot to Assassinate John F. Kennedy and The Secret Team: The CIA and Its Allies. - Amazon author profile

“Flexible Response” (to Communist influence on nations of the world rather than uniformed combat) was CIA based assassinations and Psychological Warfare studying how to and then influencing popular opinions in foreign nations and included full overthrow operations lending hands to internal combatants of contested countries.

Col. Prouty spent 9 of his 23 year military career in the Pentagon (1955-1964) VP Nixon served from 1952 to 1960 and jFK inaugurated 1961 to 1963:

- 2 years with the Secretary of Defense,
- 2 years with the *Joint Chiefs of Staff*, and
- 5 years with *Headquarters, U.S. Air Force*

In 1955 he was appointed the first "Focal Point" officer between the CIA and the Air Force for Clandestine Operations per National Security Council Directive 5412. He was Briefing Officer for the Secretary of Defense (1960-1961), and for the Chairman of the Joint Chiefs of Staff.

At times he would be called to meet with Allen Dulles and John Foster Dulles at their home on highly classified business. He was assigned to attend MKULTRA meetings. In this capacity Col. Prouty would be at the nerve center of the Military-Industrial Complex at a time unequalled in American History. He has written on these subjects, about the JFK assassination, the Cold War period, and Vietnamese warfare, and the existence of a "Secret Team". He backs up his his work with seldom seen or mentioned official documents - some never before released.

Oversight of United States covert operations

From Wikipedia, the free encyclopedia

Executive oversight of United States covert operations has been carried out by a series of sub-committees of the National Security Council (NSC).

Birth of covert operations in the Cold War

At the beginning of the Cold War, it was not inevitable that covert operations would become the dominion of the Central Intelligence Agency (CIA). The National Security Act of 1947 did not explicitly authorize the CIA to conduct covert operations, although Section 102(d)(5) was sufficiently vague to permit abuse. At the very first meetings of the NSC in late 1947, the perceived necessity to "stem the flow of communism" in Western Europe—particularly Italy—by overt and covert "psychological warfare" forced the issue. The actual responsibility for these operations was a hot potato, and when it was decided that the State Department would be in charge, Secretary of State George Marshall sharply opposed it, fearing it would tarnish the international credibility of his department. The upshot was that responsibility for covert operations was passed on to the CIA; this was codified in a NSC policy paper called NSC 4-A,[4] approved in December 1947. NSC 4-A provided the authorization for the intervention of the CIA in the Italian elections of April 1948.[5]

The Organization for European Economic Cooperation Chapter five of the book selectively excerptred here as it fits Wayne Madsen and Ed Donegan Sleeper Agent theory of Obama Jr.)

The headquarters of the Organization for European Economic Co-operation (OEEC) where Dorothy worked was in the Chateau de la Muette in Paris. In 1770 Marie Antoinette took residency there to President Harry Truman had disbanded the OSS when the war ended, having thought that the officers were a little too wild. In fact OSS boss General William Donovan had well earned his nick name "Wild Bill."

Needing to continue with an intelligence gathering capability, there was formed the Office of Policy Coordination. This small office would eventually transform into what is now the CIA. One of OPC's earliest programs was to hold a similar conference in Europe. They knew of plans for the Soviets to hold a second world conference denouncing American Imperialism in April in Paris.

Frank Wisner, OPC's first Director, planned a counter demonstration. He had gathered his own roster of intellectuals, artists and writers, all anti- communists. OPC would need funding for the plan and Wisner knew just where to get it.

Wisner cabled Dorothy's boss Averell Harriman for help.

Harriman diverted 5 million francs from the coffers of the Marshall Plan and made that available to OPC members in Paris to fund the counter demonstration.

Dorothy was on Harriman's secretarial staff and as such was taking notes, preparing cables, and compiling lists of those persons who would take part in this counter demonstration. It was here, in Paris she reunited with Howard Hunt. He worked for Harriman as a speech writer and film producer although it is more than likely Hunt was actually working for both Harriman's OEEC offce and for Wisner's OPC unit.

The double agent would be Hunt's modis operandi in later years when he "retired" from CIA and joined Nixon's covert-ops team. In his book, American Spy, Hunt writes that the relationship between Dorothy and he grew stronger, and by September he realized that he wanted to spend the rest of his life with this

"feisty woman."

For her part, Dorothy had started divorce proceedings in Paris to end her disastrous marriage to the Marquis. By all accounts this seems to have been a love at first sight fairytale. I say "seems" to have been. In researching this book I came across this entry in CIA files declassified under the Freedom of Information Act. What follows is the entry:

Dorothy Wetzel worked for the State Department in Bern, Switzerland, between July 1944 and January 1946. From April 1946 to May 1947, DOROTHY HUNT worked for the Treasury Department, Shanghai, China. She joined Economic Cooperation Administration in April 1948. She married HOWARD HUNT on September 7, 1949.

The CIA reported that "DOROTHY LOUISE HUNT [OS 355,750] was investigated for Agency employment in 1948. Her former husband [Goutierel was described as an habitual drunkard and not inclined to remain in any one place for any length of time. She did not enter on duty, having accepted a position with the Economic Cooperation Administration in Paris. Our Paris sources later reported that Subject's wife was formerly his mistress and was openly flouted as such for several months.

She was then described as an amoral and dangerous individual who underhandedly attacked those persons who incurred her enmity." [Emphasis added.]

The "subject" was E. Howard Hunt and these entries came from his file. It claims that Dorothy was Hunt's mistress and he openly flaunted her as such! Openly flaunted her? I would normally consider this a disparaging remark if I felt it were true. However knowing that Dorothy had applied for a CIA (OPC) position and "did not enter on duty" leads me to suspect that Dorothy may have been keeping tabs on Harriman, Hunt et al. for OPC under the protective cover of Harriman's Offce of Economic Cooperation unit.

Biography of Thornley by Spartacus Educational - Kerry Wendell Thornley met Lee Harvey Oswald while in the United States Marines in 1959. Later that year Thornley was transferred to Atsugi in Japan.

In 1962 Thornley wrote a novel called The Idle Warriors about a disgruntled marine who defects to the Soviet Union. The book was based on Thornley's knowledge of Oswald. The following year Thornley moved to New Orleans where it was claimed he associated with Guy Banister, David Ferrie and Clay Shaw. Oswald was also living in the city at that time but Thornley insisted that the two men never met during this period. The two men were also both in Mexico City in September 1963. - end biography

It continues to be my Edward Paul Donegan's assertion that the airbase in Japan my father flew reconnaissance out of during the Korean War in the F-86 and where Francis Gary Powers flew the U2 out of is another intersection of air force history that Lee Harvey Oswald, James Donegan, GLorian Donegan, Col Prouty, and Howard Hughes and RKO and Mahue all intersect at, cold war propaganda glory about the Air Force and the FBI in the cold war and defectors.

The FBI were aware of Thornley's novel and so after the assassination of President John F. Kennedy he was asked to testify before the Warren Commission.

Jim Garrison later claimed that Thornley and Lee Harvey Oswald were involved together in covert CIA operations. He also argued that Thornley had impersonated Oswald between the years 1961 and 1963. In his book On the Trail of the Assassins (1988) Garrison insists that Thornley was friends with another possible conspirator, Johnny Roselli.

Why should we believe her or Col. Prouty and the photographic and video evidence or now the so many others that show a cove-up of the CIA's activities and role in the Kennedy assassination.

James Paul Donegan was flying the F-84 or F-86 along with Francis Gary Powers (U-2) in Anti Iron Curtain recon it appears during the cold war and Lee Harvey Oswald true CIA Patriot may have been working on the history of the defense of England by Radar with P-51 Spitfires (the Spitfire was made as the P-51 in the USA) fought the bombing of Conventry in its finest hour, that part of history my father may also have flown in.

It continues to be my Edward Paul Donegan's assertion that the airbase in Japan my father flew reconnaissance out of during the Korean War in the F-86 and where Francis Gary Powers flew the U2 out of is another intersection of air force history that Lee Harvey Oswald, James Donegan, GLorian Donegan, Col Prouty, and Howard Hughes and RKO and Mahue all intersect at, cold war propaganda glory about the Air Force and the FBI in the cold war and defectors.

At two minutes in to a recording of the real Jim Garrison and his team it is ignored that Oswald coming from California (and late Mexican border) **found Nazis**. Later in the tape at this mark Garrison and his team note that building Oswald is working out of seems to be a CIA operation [confimed by Chauncey Marvin Holt sharing is photos of himself, Belcher, Reynlods, and Leroy Young], and also btw Masonic Temple, and Office of Naval Intelligence and FBI operation. https://www.youtube.com/watch?t=1160&v=6dUjFQCQczk&feature=youtu.be

At 32 minutes Garrison notes suspiciously an English lord he calls Harold Lord Barney or something like that is speaking and Dallas AND General Edwin Walker had come to Dallas to hear the speech, and even more suspiciously General Walker, who Oswald is said to try have killed (but the evidence seems faked) hides his relationship and hotel stay in Dallas as when seeing the English Lord.

After graduating with a bachelor's degree from Milligan College in Tennessee in June 1950, Powers enlisted in the United States Air Force in October. He was commissioned as a second lieutenant in December 1952 after completing his advanced training with USAF Pilot Training Class 52-H at Williams Air Force Base, Arizona. Powers was then assigned to the 468th Strategic Fighter Squadron at Turner Air Force Base, Georgia, as a Republic F-84 Thunderjet pilot likely assigned to Atsugi with Prouty, Donegan, E. Howard Hunt. My father Jammes Paul Donegan had moved from the P-51 Recon to the F-84 or F-86 and had seen pictures of him next to his plane oxygen mask to the side of his face.

He married Barbara Gay Moore in Newnan, Georgia, on April 2, 1955.

In January 1956 he was recruited by the CIA. In May 1956 he began U-2 training at Watertown Strip, Nevada. His training was complete by August 1956 and his unit, the Second Weather Observational Squadron (Provisional) or Detachment 10-10, was deployed to Incirlik Air Base, Turkey. By 1960, Powers was already a veteran of many covert aerial reconnaissance missions.[5] Family members believed that he was a NASA weather reconnaissance pilot.

Wooden U-2 model - one of two used by Powers when he testified to the Senate Committee. The wings and tail are detached to demonstrate the aircraft's breakup.

Pilot Francis Gary Powers at the American High Altitude Lockheed U-2 reconnaissance aircraft Powers was discharged from the Air Force in 1956 with the rank of captain. He then joined the CIA's U-2 program at the civilian grade of GS-12. U-2 pilots flew espionage missions at altitudes of 70,000 feet (21 km), supposedly above the reach of Soviet air defenses. The U-2 was equipped with a state-of-the-art camera designed to take high-resolution photos from the stratosphere over hostile countries, including the Soviet Union. U-2 missions systematically photographed military installations and other important sites.

The primary mission of the U-2s was overflying the Soviet Union. Soviet intelligence had been aware of encroaching U-2 flights at least since 1958 if not earlier but lacked effective countermeasures until 1960. On May 1, 1960, Powers's U-2A, 56-6693, departed from a military airbase in Peshawar, Pakistan,[14] with support from the U.S. Air Station at Badaber (Peshawar Air Station). This was to be the first attempt "to fly all the way across the Soviet Union ... but it was considered worth the gamble. The planned route would take us deeper into Russia than we had ever gone, while traversing important targets never before photographed."[

The more accurate statement is Jack Ruby killed JFK in the sens he silenced Patsy Oswald completing the assassination scheme

Jack Leon Ruby (born Jacob Leon Rubenstein was Yidish Chicago Mafia, Kosher Nostra. He and his Great Britain Cecil Rhodes League of Nations Free Mason supporting NWO mafia tied to United Fruit Company and the CIA Mafia including John Foster and Alan Dulles wanted overthrows around the world.

That is widely known. What I contribute to the story is the CIA Rockefeller Assassinations and MKULTRA Program were trying to prune some defective genes, or one gene, from the Windsor family, FOXP2.

The many families that are a part of long term CIA study include the Kennedy's and Bush and Rockefeller families at least, but split and kept out or stopped from objecting are Kennedy's who think taking promising out of wedlock changed name families for use in foreign backed ques program.

Texas backs the CIA and the Bush family and still support the CIA including allowing CIA hits on JFK assassination witnesses.

Ruby wanted to come clean to why he silenced the completely framed Lee Harvey Oswald but Ruby himself was silenced with Cancer.

The more accurate statement is Jack Ruby as a Asset killed JFK a triggerman for the Kingpins that had control of him and he had to take their orders. Per Ted Gunderson it is called a Control Jacket likely refering to a file they have on a person and they had a big file on Ruby, once in, it is hard to get out clean. Most want some files as "protection" should anything suddenly "happen to them."

The elites were trying to protect their Thrones in genetic research and their claim to thrones, those thrones who would be a manageable Commonwealth and not warring children with no parents.

Jack Ruby had ties to ancient breeding Illuminati families tied to Gotha Germany and was mostly Protestantism in Germany, France, later England, and elsewhere in a form of secretive Kabbalism.

This order probably began researching FOXP2 Syndrome and Minimal Brain Disorder about the time literate people began writing.

Many families carry this gene and I Edward Paul Donegan am in the watched and studied family lines.

are the Kennedy's and many others. The darker side of this is many Masonic families want this kept secret including the Windsors and their genetic arrogance.

JFK wanted nothing to do with the the nation of Great Britain, its rule of the world, or imposition of itself on Ireland or France especially under an arrogant banner of superiority while Rosemear Kennedy had such a horror while the gene was hidden.

The British and the British loyalists killed JFK to silence him on the matter. In the more complex plot Russia was to be blamed as was Oswald who may or may not have fired a shot.

Oswald was a higher level player helping “silence” JFK on this matter by taking out Oswald who was about to talk.

Let me begin my theory of this book, the Donegan's, the Bush family, the Kennedy family, Arkansas with a play.

Somewhere at the FBI, CIA, the Pentagon, or DARPA CENTCOM NORCOM

Big General: The Ruskies and the Chinamen have some damn big new missiles and warheads!

Military Industrial Complex: Let’s work with the oil companies and deprive Communists of oil revenue. That should disrupt many of their military and scientific research programs.

FBI Director J. Edgar Hoover: Yup, and the public does not see the threat. All that social justice in the world and rising racial strife is building those communist fools glory ever day. Soon they shall crown Fidel Castro King

James Angleton We need to disrupt communist plans and activities, plant childporn, assassinate, disrupt, etc., create sleepers and moles, overthrow governments:

DARPA NASA: We have some programs underway with Life Sciences tied to the British. It involved some out-of-wedlock Windsor family remembers secretly having and raising children with a language quirk, bad handwriting and grammar, etc., Maybe we can take the ones that don’t show that defect and move them around the Commonwealth countries and independent countries, groom them for office but we wo’t admit we are backing them.

CIA:We need bases, we need oil contracts that give us stake holding roles in world oil supplies, we need that to overlap with protecting the new homeland for Jewish refugees. We can work in Middle East, North Africa to weave that into existing British Petroleum and Standard Oil cooperation, etc.,

Angleton from CIA: WE have a lot of friends in the oil business. Let’s let them play rough, even give them a hand getting into some unstable countries and these oil companies can hold hands with the moderate politicians and brag about how much hard US Currency the oil business puts into the hands of people of those countries.

V.P. Nixon built sleeper agents and regime change with the Rockefellers supporting this in MKULTRA but he lost to Kennedy. We the Secret Team like the program and will continue it. Cecil Rhodes Secret Society thinks a Leuage of Connected natioins will stop war.

Meeting Consensus:Done. Zapata Oil, Standard Oil, etc., will work with and get backing to move our overthrow teams in to industrializing unstable and hostile countries and increase our footing in those countries

John F. Kennedy and Robert F. Kennedy: ALl this cover genetics research is vital to national security, we need to understand all these race and other genes and medically import genes and the Griffith Experiment Opus Dei techniques, but I don’t want this to go to far. Killing foreign leaders is not medical research, and I have no love for the Queen of England plans for Ireland either.

George H.W. Bush IF I make enough money in these operations I could be big some day, not just backed or allowed by the CIA FBI to get foreign oil contracts, I might even run for office some day, or translate my experience being a CIA backed company into working for the CIA itself.

Angleton:We have a lot of guys working with new technology. University of Wisconsin Madison has some Xray equipment in the works for medical use, we have some electro electroencephalograph technology I am testing in interrogation use, and we have some of that same stuff in caner studies and DNA. Some of this is studying birth defects, atomic blasts, etc., on volunteers or survivors. Atomic Veterans. Finally, we have some resources trying IVF. We could do a test fertilization starting February 20 1961. Might work well we could fudge it later to be a relative of a royal or something that we hid at birth.

J. Edgar Hoover: We are testing most of this stuff and getting telemetry from it, I get that from NASA and the military. RADAR, and microwave, other studies underway. Mary has a lab and also some cancer by Xray studies are being done by the old OSS team.

Angleton: Robert Mueller II father of Robert Mueller III is on the board of DupPont Corp which has Glorian Donegan in sort of hiding, out of wedlock with FOXP2. He attended Gilman School in Baltimore, and at Princeton majored in psychology. Bob was on the varsity football, hockey, and lacrosse teams and was a member of Cap and Gown Club. He also was, for three years, our first class president and was Ivy Orator senior year. He is leading the NSA CIA Behavioral Health care research on this, and was part of the OSS Eugenics research pre WWII era along with the Prescott Bush and many others. Let’s see his fax.

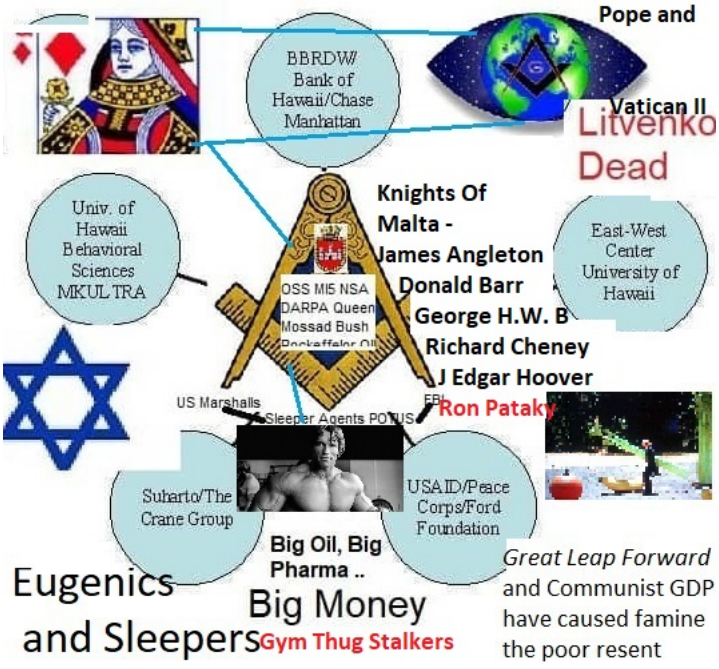
Agngleton: J. Edgar Hoover and I think we can pull this off in our Behavioral Heath plan with Dr Cameron, the Rockefellers, Aussies and Brits Canada but there is a risk of MKULTRA hearings into Behavioral Health Care and assassinations

NSA Secret Cell We can manage that risk and keep the operation under wraps. We have the Press Corpus in our pockets too.

Donald Barr: We Free Masons have some research going on in St Louis which is a space medicine center. We also have other Free Mason ties in world economies like Scottish Rites and OECD who are looking at Eugenic brain and other health increases for better life.

JFK and RFK: I still think the basics of research are good and we need to defeat communism. But using the Mafia as the sharp point of the spear as an FBI operation makes us the Mafia. We are crossing the line away from law enforcement and into political violence.

DARPA: Better Ethically Dead than Red. Its either do some dirty work or we are defeated by communism. They are ahead in the space race militarily and politically gaining ground by observing



Capitalism places white wealth above laborer racial populations. Unless we embrace Hitler's ideas on race we have to find some way to defeat that. Grooming some select leaders for the countries in chaos will work.

JFK:I strongly disagree. I met with that guy, and Barrack Obama Jr turned out well according to these reports but I don't like the whole plan.

J. Edgar Hoover: The plan goes ahead, as we discussed at Manhattan Beach California and Seatle Expo with the Windsor family. Its a world need. The CIA St Loius lab says they can and will get the job done. WE have a guy there Clay Shaw who can help using the Malcom Little DNA. We also have Kings Daughters Hospital in Norfolk on the job.

Lyndon B. Johnson: The Peace Corps and East-West Center Hawaii are in this with us. I know a few things about them. I created them while I was in the Senate. And they know a few things about peace. The plan is a "Go" and it is a long term plan not to be obstructed.

From 1945 to 1955, Operation Paperclip granted nearly 1,000 German scientists American citizenship. Many had been longtime members of the Nazi party and the Gestapo and had conducted experiments on humans at concentration camps and commited other war crimes. The scientists ended up in the U.S. military industrial complex,worked with the CIA, NASA & more. One of the Nazi experiments that continued in America was mind control... known as the CIA's Project MK-ULTRA.

Re Miami airtel dated 1/21/64.
For the information of Miami, local NY newspapers have recently carried stories which indicate that subject has spent a week in Miami, Florida, vacationing with his wife BETTY, and their three young daughters. According to the articles, subject and his family were the guests of heavyweight contender CASSIUS CLAY while in Miami.
CLAY and subject returned together by plane to NYC on 1/21/64. That same evening, CLAY was the guest of honor and speaker at a Dinner Social sponsored by the FOI and MGT of Mosque #7, NYC, held in Rockland Palace, 8th Avenue and 155th St., NYC. Subject did not attend the affair, and CLAY reportedly returned to Miami the following day. In a newspaper interview CLAY advised that his managers did not know that he was making this trip to NYC, and they quite upset about it.
On 12/4/63, subject was temporarily suspended by NOI leader ELIJAH MUHAMMAD for remarks subject made in NYC on 12/1/63, relative to the assassination of former President KENNEDY. Since

The Fair Play for Cuba Operation was a CIA operation likely to plant Nazi Windsors derived mixed race families.

At two minutes in to a recording of the real Jim Garrison and his team it is ignored that Oswald coming from California (and late Mexican border) found Nazis. Later in the tape at this mark Garrison and his team note that building Oswald is working out of seems to be a CIA operation, and also btw Masonic Temple, and Office of Naval Intelligence and FBI operation. audio

At 32 minutes Garrison notes suspiciously an English lord he calls Harold Lord Barney or something like that is speaking and Dallas AND General Edwin Walker had come to Dallas to hear the speech, and even more suspiciously General Walker, who Oswald is said to try have killed (but the evidence seems faked) hides his relationship and hotel stay in Dallas as when seeing the English Lord.

Did General Walker fake an attempt on himself to build a Legend regarding Oswald? Probably so.

News of the discovery of nuclear fission by German chemists Otto Hahn and Fritz Strassmann in 1938, and its theoretical explanation by Lise Meitner and Otto Frisch, was brought to the United States by Niels Bohr. [*]

At the University of Birmingham in Britain, the Australian physicist Mark Oliphant assigned two refugee physicists-Otto Frisch and Rudolf Peierls-the task of investigating the feasibility of an atomic bomb, ironically because their status as enemy aliens precluded their working on secret projects like radar. Their March 1940 Frisch-Peierls memorandum indicated that the critical mass of uranium-235 was within an order of magnitude of 10 kg, which was small enough to be carried by a bomber of the day. The British Maud Committee then unanimously recommended pursuing the development of an atomic bomb. Britain had offered to give the United States access to its scientific research,[10] so the Tizard Mission's John Cockcroft briefed American scientists on British developments. He discovered that the American project was smaller than the British, and not as far advanced.

A disappointed Oliphant flew to the United States to speak to the American scientists. These included Ernest Lawrence at the University of California's Radiation Laboratory in Berkeley. The two men had met before the war, and were friends.Lawrence was sufficiently impressed to commence his own research into uranium. Uranium-235 makes up only about 0.72% of natural uranium, so the separation factor of any uranium enrichment process needs to be higher than 1250 to produce 90% uranium-235 from natural uranium.[The Maud Committee had recommended that this be done by a process of gaseous diffusion, but Oliphant had pioneered another technique in 1934: electromagnetic separation. This was the process that Nier had used.

A *Calutron* is a mass spectrometer originally designed and used for separating the isotopes of uranium. It was developed by Ernest Lawrence during the Manhattan Project and was based on his earlier invention, the cyclotron. Its name was derived from California University Cyclotron, in tribute to Lawrence's institution, the University of California, where it was invented. Calutrons were used in the industrial-scale Y-12 uranium enrichment plant at the Clinton Engineer Works in Oak Ridge, Tennessee. The enriched uranium produced was used in the Little Boy atomic bomb that was detonated over Hiroshima on 6 August 1945.

Electromagnetic separation for uranium enrichment was abandoned in the post-war period in favor of the more complicated, but more efficient, gaseous diffusion method.

Government officials began to view the development of atomic bombs in time to affect the outcome of the war as a genuine possibility. ***Vannevar Bush***, the director of the OSRD, which was overseeing the project, visited Berkeley in February 1942, and found the atmosphere there "stimulating" and "refreshing".[44] On 9 March 1942, he reported to the president, Franklin D. Roosevelt, that it might be possible to produce enough material for a bomb by mid-1943, based on new estimates from Robert Oppenheimer that the critical mass of a sphere of pure uranium-235 was between 2.0 and 2.5 kilograms. From Wikipedia the free encyclopedia

Even though Oak Ridge (outgrowth of Columbia University New York City near Manhattan Island project seed) was a secret, closed city during the Manhattan Project, several mini-communities existed within its boundaries. Happy Valley, a community designated for the workers at the nearby K-25 Gaseous Diffusion Plant, was a good example of the miniature "worlds" that existed within Oak Ridge during the Manhattan Project.

In June, 1943 the J.A. Jones Construction Company began building housing for temporary workers involved in construction of the K-25 Gaseous Diffusion Plant and development of the Manhattan Project's Oak Ridge operations. The housing area's population ranged from 9,000 to almost 15,000 people during the Manhattan Project. The community included a theater, grocery store, bowling alley, 100 homes, 900 trailers, men's dorms, mess hall, barracks, a school, a recreation center and more. A smaller, more rudimentary workers' community existed nearby for the segregated African American population.

Happy Valley was a vital part of the Manhattan Project and the nation's quest to develop an atomic bomb during World War II. The construction camp was demolished by the mid-1950s and the property was allowed to re-vegetate and became a mixed pine and hardwood forest.

Project Y From Wikipedia the free encyclopedia

The Los Alamos Laboratory, also known as Project Y, was a secret laboratory established by the Manhattan Project and operated by the University of California during World War II. Its mission was to design and build the first atomic bombs. Robert Oppenheimer was its first director, serving from 1943 to December 1945, when he was succeeded by Norris Bradbury. In order to enable scientists to freely discuss their work while preserving security, the laboratory was located in a remote part of New Mexico. The wartime laboratory occupied buildings that had once been part of the Los Alamos Ranch School.

The development effort initially concentrated on a gun-type fission weapon using plutonium called Thin Man. In April 1944, the Los Alamos Laboratory determined that the rate of spontaneous fission in plutonium bred in a nuclear reactor was too great due to the presence of plutonium-240 and would cause a predetonation, a nuclear chain reaction before the core was fully assembled. Oppenheimer then reorganized the laboratory and orchestrated an all-out and ultimately successful effort on an alternative design proposed by John von Neumann, an implosion-type nuclear weapon, which was called Fat Man. A variant of the gun-type design known as Little Boy was developed using uranium-235.

Chemists at the Los Alamos Laboratory developed methods of purifying uranium and plutonium, the latter a metal that only existed in microscopic quantities when Project Y began. Its metallurgists found that plutonium had unexpected properties, but were nonetheless able to cast it into metal spheres. The laboratory built the Water Boiler, an aqueous homogeneous reactor that was the third reactor in the world to become operational. It also researched the Super, a hydrogen bomb that would use a fission bomb to ignite a nuclear fusion reaction in deuterium and tritium.

The Fat Man design was tested in the Trinity nuclear test in July 1945. Project Y personnel formed pit crews and assembly teams for the atomic bombings of Hiroshima and Nagasaki and participated in the bombing as weaponeers and observers. After the war ended, the laboratory supported the Operation Crossroads nuclear tests at Bikini Atoll. A new Z Division was created to control testing, stockpiling and bomb assembly activities, which were concentrated at Sandia Base. The Los Alamos Laboratory became Los Alamos Scientific Laboratory in 1947.

Robert W. Donegan, age 87, passed away surrounded by his loving family on February 3. He is survived by his devoted wife of 62 years, Helen (Boudrot). He is also survived by his 5 children and their families - Elizabeth Bynarowicz, her husband Paul and their sons, Timothy, Michael and Peter of Simpsonville, SC; Nancy Levanchy, her husband John and their son Michael of Scituate; Susan Burke, her husband Daniel and their daughters Lindsay and Emily of Marshfield; Robert Jr., his former wife Amy and their sons David and James of North Reading, and Stephen, his wife Patricia and their daughters Kathleen, Annemarie, and

Julie of Plymouth. He is also survived by his sister Elizabeth Connolly and many nieces and nephews. Bob was predeceased by his brothers, Edward Jr., Francis Donegan, and James Paul Donegan.

I think my father modified a few facts one of which I was named Edward “Ned” the British name for Edward after his father Edward. Edward Jr. was his brother along with William. The English Edwward I think was on his wife Glorians paternal side who my father and others described as titled abicated little signifance king I though in Ireland.

Bob was born in Dorchester to poor Irish imgrants as my father James Paul was and attended schools in Dorchester and South Boston. He joined the Coast Guard at the end of WWII and upon completion of service attended and graduated from Bentley College. He worked many years in private industry in accounting and financial management. At the end of his career he worked for the Mass Rehab Commission, retiring in 1982.

Together, Bob and his wife Helen raised their family in Scituate and later retired to Marshfield. Bob was an avid reader with a passion for history, sports and politics. His sense of humor and his endless enthusiasm, pride and unwavering support for his friends and his family members will be remembered fondly and missed greatly.

A funeral Mass will be on Tuesday, February 9th at 11 AM, in St. Mary of the Nativity Church, 1 Kent St., Scituate. What is Gang Stalking a Targeted Individual? Targeting of Individuals by the US Government for Subversion, attacks, etc.?

By Professor Eric Thor Karlstrom, Ph.D https://erickarlstrom.com/

A Simple Definition

Under Occupational Health and Safety laws, individuals are being flagged and placed on community notification lists. This is happening without the targets knowledge. In many countries these community notifications are being used by companies and others to target innocent individuals such as whistle-blowers, the outspoken, etc. In conjunction with these notifications, companies and others are in some cases using a practice that was used in the former soviet union called the psychiatric reprisal. This is used as a means of retaliation, blacklisting, silencing, or controlling members of society. Once on the notification system, warnings about the targets are sent out to every individual the target comes in contact with, thus poisoning their associations, and socially annexing the targeted individual.

Gang Stalking is a systemic form of control, which seeks to destroy every aspect of a Targeted Individuals life. Once a target is flagged a notification is sent out to the community at large, and the target is followed around 24/7 by the various communities that they are in.

Target Selection

Gang stalking apparently targets American citizens deemed to be dissidents or whistle-blowers (and perhaps potential dissidents and whistle-blowers), although others might be targeted for other reasons - such as for experimental or training purposes. For perspective, it should be remembered that for two decades the CIA performed secret illegal experiments on U.S. and Canadian citizens (the infamous MK Ultra program). Those experiments included physical and psychological torture.

A lot of accounts by self-proclaimed targets of gang stalking suggest that people are often subjected to severe long-term harassment simply because they crossed someone connected with the agencies and security firms which perpetrate such operations.

An example of that type of abuse occurred in April 2012, when USA Today reported that one of its reporters and an editor were slandered by a secret disinformation campaign waged by an intelligence contractor firm to discredit them because the newspaper had investigated and reported on that contractor. The company involved conducted propaganda campaigns for the U.S. military. Similarly, in August 2013 it was reported that at least a dozen National Security Agency (NSA) employees had used their surveillance system access to spy on their current and former spouses and partners.

Implications

In addition to being morally reprehensible, gang stalking - just like the original version of the FBI’s Cointelpro operations - is illegal. It violates criminal laws in all fifty states against stalking, as well as grossly violating the U.S. Constitution’s prohibitions against warrantless searches and extra-judicial punishment.

While the vast majority of Americans are never personally targeted by gang stalking, they should still be concerned about the existence of such operations. Even if such activities were constitutionally legitimate (clearly they are not), they would still have an enormous potential for abuse as a personal or political weapon by the practitioners.

Ending this cowardly and illegal practice by law enforcement agencies, intelligence agencies, and their parasitic corporate contractors will require exposing what is happening to the public. Anyone reading this can assist with that exposure by simply sharing this information with others.

JFK objects to this grooming of family lines of English feudal lords and Oswald knows JFKs objection. Oswald attempts to call John D. Hurt in Raligh North Carolina but can not get through and is assassinated by a proponent of the plot, Jack Ruby.

Other proponents of the Free Mason NWO plot are the DupOnts (Robert Mueller II, Robert Mullery WIII, Christopher Wray, Boeing, LBJ, J. Edgar Hoover, and all other 33rd Degree Master Free Masons, namely George H.W. Bush, Donald Barr, William Barr, Scotish Rits.

Before the US Central Intelligence Agency killed some people very close to me I could not understand why I needed political asylum from a United States of America I was deeply loyal to.

Jen Moore was murdered by the stove-pipe of fumes coming from the combination of USA Espionage agencies not the least of which is the Federal bureau of Investigation (FBI) who has world-wide counter terror operations against many nations inside those nations including Cuba, Ireland, Indonesia, Hawaii, and others including as well China and Russia.

Subversion, assassination, wetworks, psychological ware in conjunction with the United States military is a form of non-uniformed political violence and regime change denied to the public.

Through the death of Jen Moore and the FBI cover-up of many murders of their own, of members of the press, and US Government officials I have learned more about the reason for the murders and Shadow Government of the USA.

In short the Oil Business loyal to England, the British Pilgrim Society and the US Council on Foreign Relations along with Knights of Malta and many other State actors such as DuPont, Boeing, and other military contractors tied to their board members such as Robert Mueller, Christopher Wray, George H.W. Bush and many of the others of the Bush family along with the Rockefellers, LBJ, Oliver North, and many others have been running attempts to overthrow nations via OSS/CIA techniques long in use including radiological attacks.

My mother grew up in North Carolina with Harold Gainey with Festus Gainey. Glorian Gainey was tied to the Maria August Kutschera Von Trapp, and that history goes to a dirty war of the day of WWI and WWII as Eugenics studied and now covers-up the genes in our families.

The Espionage murders of Jen Moore and others (often who are law enforcement) are the CIA FBI Shadow Government of Targeted Killings who have path to hide and that path includes the murder of Marilyn Monroe and many Roman Catholic figures who did refuse a deal they could not refuse, working with the Queen of England on these programs.

I assert the FBI DOJ OSS love of mafia and contract killings was shown in the murder of JFK, RFK, Marylin Monroe, Lee Harvey Oswald, Ted Gunderson, and Dorothy Kilgallen.

The after that were the WETDIVISION murders of Thomas Crane Wales, Justice Scalia, Judge Roll, and other Roman Catholics again who did refuse a deal mistakenly offered to them.

I take no deals with these people either and my life is in danger.

Robert Swan Mueller, Christopher Wray and others specially in Targeted Killings, targeting people in the USA for assassination by radioactive raw source or X-RAY, evidence plants, COINTELPRO evidence plants, Gang Stalk paid actors evidence manufacture (stage false appearances in Abuse of Processes sabotage) and other acts.

It is these crimes I am victim of because the plan to kill Castro and create Obama Jr. in Indonesia involved a sampling of Donegan DNA in Twins studies and the Free Masons (J. Edgar Hoover, others) will not admit to their meeting with JFK February 20 1961 or the Middle East North Africa (MENA) CIA airport black budget money laundering plan of oil profits, or the murder of Barry Seal, all connected including the the YMCA and Salvation Army, US Peace Corp, and USAID, and the Anglicans.

A SONIC oscillator, a show being produced to theater goers about how RADAR works, perhaps in Japan "How Charlie" won the war over Dover Cliffs? Lee Harvey Oswald part of demonstrating the radar to as Glorian Gainey, Harold Gainey, and Marylin Monroe are there? Rocky Horror

Sonic Oscilator operator?

My theory is the CIA and RKO were making some fictionalized movies about how Charlie, pilots of the F-80s won the war The Americanization of EMily with Julie Andrews, out of wedlock Windsor hiding who her father is, also Sound of Music, and she was in “Tell me how you won the [WWII] war over London” and that story was RADAR also this is in Jet Pilot with John Wayne.

I think when my father met my mother’s sister first but did not find to be looking for a date was Marylin Monroe. Harold Gainey and GLorian Gainey were also there and my father married GLorian Donegan at the movie making cast of characters.

The Movie and play Rocky Horror Picture show has writing on the wall of GLorian and Tom and a C-section, a plane, and a a chicken, I thin an IVF rpresentaion, and the RADAR could have been shown at a Boieng lab, SSFL, Japanese RADAR station, or elsewhere, and Lee Harvey Oswald in on the whole story.

In the quotes of the order to bomb Japan there is also a fine targeting I have ever seen may have meant some marriages and also the usefullness of radar in finding threats in the air.

Further Reading

To consider and explain Lee Harvey Oswald as a CIA Patriot much like Leslie Ann Shedd or other CIA operatives betrayed by slush-fund CIA it is neccesary to show where his intersectional story with the life path of James and Glorian Donegan.

James Paul Donegan

James was born to Nancy Donegan and I am a little confused about his father’s first name.

Jame’s father came from Ireland to Boston Massachusetts during the Potato Famine believed by the Irish to be an economic throttle of the Irish people that fueled England’s military against the French while suppressing Ireland and its productivity.

Though James’ father had been an accountant CPA type in Ireland in Boston he was only able to work as a janitor in a Hersheys chocolate factory and later died of a heart attack, said to have been dead by the time he hit the floor in a sudden event leaving my father in tears.

James’s mother I believe to be Nancy Detweiler or Nancy Donegan, the wife of James’s father and those two the biological family of James and the family of origin in which hg was born into in Boston Massachusetts.

While in extreme poverty as a youth he joined the Army Air Corps as soon as he could likely seeing one of the Jimmy Stuart ads on TV that I have now seen in which those just under 18 and with little existing training could recieve training in a military eager for recruits as the war was unfolding.

His became a pilot in the Army Air Corps flying the P-51 built in Inglewood California (a neighborhood of Manhattan Beach, a city in Los Angeles County.)

Manhattan Beach used to confuse me for many years. Where was I born? Every bank security question or various enrollments asked though. My mother used to say Manhattan Beach and I would hear Los Angeles and say but those are on the opposite sides of the Country.

Manhattan Beach California (perhaps like Venice Beach) takes its name as a city from the Manhattan Project which was conducted by Columbia University New York City, named as the Manhattan Project because Columbia University in NYC overlooks the island of Manhattan and that became the code name for the building of the Atomic Bomb and first nuclear piles as a high energy physics research project as well as the Cyclotron atom smashers of Lawrence Livermore Lab my father used to take me to and tell me about in the UC Berkeley hills where we would live, on the east side, in a foothill town called Moraga California though I would go to high-school on the west side of the school near Lancer Livermore lab at Head Royce and be enrolled in extra curricular classes at LLL.

OSWALD, MARINE CORPS INTELLIGENCE, AND THE ASSAULT ON THE STATE DEPARTMENT

Introductory Abstract

by Peter Dale Scott

The special handling of Lee Harvey Oswald by the State Department (in conjunction as I have argued with the CIA) was undeniably anomalous. It swiftly aroused (by as early as 1960) the suspicions of FBI, ONI and Marine intelligence personnel, and Hoover's allies (notably Otto Otepka) in the State Department Office of Security. We know this chiefly from Oswald's ONI records, where we also learn that there were confidential ONI messages on Oswald (alias Harvey Lee Oswald), stored in Marine G-2 (intelligence) files that were never seen by the Warren Commission.

The charade of Oswald's discharge from the Marine Reserve in 1960 was an operation coordinated by Marine G-2 and ONI Counterintelligence. This discharge was used to challenge State's determinatibn that Oswald had not revoked his U.S. citizenship, and to empower Otto Otepka in a series of vain efforts to pry loose confidential information about Oswald from files in other parts of the State Department.

Otepka eventually shared his understandable suspicions about State's handling of Oswald with the Senate Internal Security Subcommittee (SISS). After Otepka was first reprimanded, and then dismissed from his position, the SISS in 1964 publicly explored Otepka's concern that Oswald's passport application had been mishandled by the State Department.

not OK

The uproar over the Otepka case in 1963 became one more battle in an on-going war between elite (above all State) and anti-elitist (FBI, military intelligence) factions in the U.S. Government, the latter backed by the SISS and virulently anti-Kennedy right-wing organizations, notably in Dallas. The drilling and ransacking of Otepka's safe by Kennedy-appointed officials (later forced to resign) reveals how deeply this conflict divided elements inside the bureaucracy.

Oswald's Suppressed ONI and Marine G-2 Records

The FBI-Supplied "Basis" for the ONI/G-2-Arranged "Discharge"

The first available evidence of on-going contact between ONI and Marine G-2 with respect to Oswald is an Confidential ONI file reference, dated February 4, 1960, to a conversation two days earlier between Lt. j.g. Fredrickson of ONI and Captain Steele of Marine G-2. The topic is Oswald's recent defection to the USSR, or more specifically State Department reporting of this event.[48] There are other such references to such telephone conversations, whose content remains hidden even in the confidential ONI letters withheld from the unclassified Oswald personnel file.[49] It is not clear

[42] Letter of 6/3/60 from John Edgar Hoover, Director of FBI, to Office of Security, Department of State (ONI-100). Consider also the unfulfilled requests for information from J.Edgar Hoover on February 27, 1961, and from Emery J. Adams of the State Security Office on March 2, 1961 (Newman, *Orwald and the CIA*, 213-14). As if he had seen military intelligence references to "Harvey Lee Oswald," Adams asked other branches of State to "advise if the FBI is receiving info about Harvey on a continuing basis."

[43] 16 WH 597; cf. 16 WH 594. On July 16, Marguerite wrote again, astutely raising a potentially embarrassing question: in what city had her son's passport been issued (16 WH 600)?. The State Department replied, correctly, "Los Angeles" (16 WH 601). Originally Richard Snyder of the Moscow Embassy had misreported this as "San Francisco" (18 WH 97; cf. Peter Dale Scott, "Oswald and the Hunt for Popov's Mole," *The Fourth Decade*, March 1994, 7). Marguerite and the State Department continued to correspond vigorously until Oswald's return (16 WH 603-20).

[44] 16 WH 599 (response of July 7 1960 to Marguerite); Confidential memo of July 11, 1960, from D.E. Boster of Soviet Division to Emery J. Adams of Security Office (for Hoover).

[46] For example, the State Department advised the Chiefs of ONI and Marine G-2 on May 10, 1962, that "The Passport Office, with jurisdiction in this matter, has advised...that Mr. Oswald...has not expatriated himself" (ONI-50). Nevertheless the Navy upheld Oswald's discharge in 1963, finding "proper" an earlier determination "that he had renounced his U.S. citizenship" (19 WH 690).

It is probable as the P-51 was being developed my father was at the first atomic bomb destination but that is not certain. He did fly in tandem with the B-29s as part of what I think was the 509th in and over Germany from which he had a mug which was stolen possibly by Tom or more accurately hidden from becoming noticed by anyone.

He told me he was a participant in the first and second atomic bombings of Japan and if we had a third atomic bomb (which he said we did not) and if the Japanese did not surrender (though they did because we said we had a third bomb) he would have had to go back to Japan again for the third bombing.

After the war he flew in Korea and I saw pictures of him next to a P-86 with flight suite, helmet, and and oxygen mask off to the side of his face. He told me there he flew reconnaissance and had nightmares of picking civilian targets by identification.

I think in the late 1950s during the Cold War, the Chinese Great Leap Forward disaster, the Pacific Missle Crisis and the Atlantic missile crisis James Paul Donegan intersected with the Von Trapp family and Julie Andres and Lee Harvey Oswald in a CIA propaganda system in Japan.

Glorian and Harold Gainey were raised by Festus Gainey in North Carolina in the depression too poor to buy clothes but told it was ok to where gunny sack made clothing if it were clean, then the material did not matter, because good clothing was just having good hygenei and keeping clothes clean.

I think CIA films were being made like Jet Pilot, The Americanization of Emily, and The Sound of Music which were part of the tale of Maria Augusta Kutschera, whith three out of wedlock Windosor children and her new husband Captaiin Von Trapp of Austria with his 7 children coming to the USA in 1926, Maria Augusta Kutschera likely leaving the convent pregnant.

She, like Glorian Donegan and Edward Paul Donegan expressed FOXP2 Minimal Brain Disorder creating a charming buut flighty personality, and somewhat rebellious children on a path of their own unable to and unwilling to follow to much disciplined studiousness.

Part of the background films was understanding RADAR and how the fighters defended London from German bombers as RADAR gave their warnings. One problem were Buzz Bombs, a German device which has propeller and would fly until the propeller ran out of power and the bomb fell to earth.

The defense of the cliffs of Dover turned into counter bombing of Dresden, military targets all through Nazi occupied Europe, and finaly into Japan to end the war.

In Japan where the bombs were dropped the stage was being set for its fictionalized story in Julie Andrews Sound of Musci and the actors were being show how radar operated, etc., with CIA backed Lee Harvey Oswald at the RADAR set;

Harold Gainey and my father and mother said James and Glorian met at an plane crash, my father's plane catching on fire, his emergency landing, and arriving on Harold Gainey DOt Dew farm in South Carolina.

Harold Gainey is actually how this group was brought together. He was taken with Glorian to South Carolina where DuPont and Robert Mueller II of DuPont arranged for the company to get a foster home with the Dew Family in South Carolina. When Harold and Glorian were telling their stories DuPont was a part of that story and keeping the Von Trapps in the United States of America. Oswald was part of that likely with Captain Von Trapp and submarine warfare in and anti sub warfare in North Carolina.

The more likely story is they met in Japan at British Propaganda about England's finest hour, and the 1961 atomic bomber crash in North Carolina was adopted and modified by my family as an alternative to the truth about meeting in Japan a few years early in in the USAF.

It was also part of a CIA plan that that gene was in Maria Augusta Keutschere, the London KE Family and it seems who was said to by my grandfather an abdicated king, Edward, but some kind of post reign (a reign of some minor or little significance) numeral of some types, I had been referee to as a III.

I think my father was told i had some gene which was being studies or at least atomic test data DNA was being studied from atomic veterans like him who at least at one time were in a blast tower in Las Vegas with googles on, and likely about this time in the 1950s, late 1950s, Tom Donegan was born to Glorian Donegan and James Donegan, Thomas Neil [Armstrong] Donegan born 1 year and 11 months earlier than Edward Paul Donegan born 11 18 1961 and with a birth certificate of November 19 1961 Manhattan Beach California at St Josephs Catholic hospital, and I think more DNA from Glorian Donegan produced at least Barrack Obama Jr, and possibly this same DNA being in Mark and Scott Kelly and others including from other sources being int the Prescott Bush family line and also Rockefellers.

James Donegan leaves the Air Force and joins TWA and we move to Manhattan Beach Los Angeles and flies out of LAX and later we move back to Boston Massachusetts.

JFK and his Irish Mafia seem to be at Los Angeles at the time of my birth and Marilyn Monroe arrived with Joseph Kennedy Sr just outside RKO at an orphanage, her biological father unknown.

What Lee Harvey Oswald was doing for the CIA is setting up children from this British Austrian family line to become unregistered registry. The Registry tracks births and Regicide is killing a royal. The non registry births allowed the London KE family to have some privacy, and kinfolk in a secret club.

Oswald's role in the CIA was to get involved with an already mole in Russia, marry his daughter, and open the door for Ted Cruz Jr. or even further infiltration of communism from inside either Russia or inside Cuba.

JFK and Jack do not like the plan nor does Marilyn Monroe. Asked to create fake birthday photos for Barrack Obama Jr. she balks and is killed.

In Seattle Expo 1962 the plan continues to be discussed, Malcolm X the biological father of Glorian Ovum produced child.

At Barrack Obama turning two years old and not expressing the genetic defect he will be a sleeper agent per J. Edgar Hoower, Lyndon B. Johson, the East West Center, Peace Corps, Shriver Lawfords, Schwartzeneggres, but JFK says no.

Rose Cherami knows of the plan to kill JFK and those over-ride the "np" but she is killed before she can reach JFK and may not have been able to get access anyway. She could have been a threat if after JFK was killed she could have offered a reason why.

Though Dorothy Kilgallen was part of the publicity for The Sound of Music her closeness to the Irish and anti mafia Kennedy Administration does not get her quite enough access to put the entire story together but she is working on it until she is killed herself.

Upon JFK's death Oswald tries to out the program by called Raleigh North Carolina but then Oswald is killed by Ruby who was part of the mafia plan to bring Rafael Cruz Jr and himself into the new casino operations in Chicago Mob Havana as a subsidiary of Chicago mafia.

TED L. GUNDERSON AN EDITED AND APPROVING BIOGRAPHICAL ANTHOLOGY OF HIS LIFE AND WORKS

Ted Gunderson was the right-hand man to RFK fighting the mafia that was run by Vice President Richard Nixon in the 1946 to 1960 years. As the Kennedy's gained power in the USA and world global dirty business operations subverted the USA and other nations. JFK and RFK attempted to shut down the CIA but it was too globally located to respond to the US Presidency and and held too much allegiance from British trained and supported Espionage in the USA operating as the US Government but through NGOs that again were difficult to control from inside the US Government. It would be comparable to NASA trying to control a long gone satellite past its available connections back to Earth.

A former senior official of the Federal Bureau of Investigation says “rogue” military intelligence and law enforcement units of the federal government oversee a nationwide network of community-based “*gang stalking*” (harassment, intimidation and domestic terrorism) directed at thousands of U.S. citizens who have been extrajudicially targeted as “dissidents” or *undesirables*.

“Based on my thirty years’ experience and research, I have determined there are thousands of victims who have been targeted by an illegal U.S. government rogue criminal enterprise - military intelligence, probably, tied into CIA and FBI and so forth - that is active 24 hours a day throughout the United States,” Gunderson stated in an October 2008 speech posted last fall on YouTube.

Ed Donegan shows the real people and real stories under the clouds of fictionalized obfuscations. THE STATE

Loyalty to Loyalty is Loyalty. Loyalty to Disloyalty is Disloyalty. Loyal People in Loyal Government is internally consistent. Disloyal People in Disloyal Government is also internally consistent.

Ted Gunderson right hand man of RFK against the Mafia

Former FBI official Ted Gunderson died of cancer on July 31, 2011. Was his illness induced by silent electromagnetic assault or by other nefarious means? We will never know - and that's just the way certain entities want it.

A former senior official of the Federal Bureau of Investigation says "rogue" military intelligence and law enforcement units of the federal government oversee a nationwide network of community-based "gang stalking" harassment, intimidation and domestic terrorism directed at thousands of U.S. citizens who have been extrajudicially targeted as "dissidents" or undesirables.

Ted Gunderson, 82, who has served as the Special Agent in Charge of the FBI's Los Angeles, Memphis and Dallas FBI Field Offices, has stated in a series of public speaking appearances that he is now targeted by these same elements, and fears for his life and for the safety of his family. He reports that the windows of his home have been shot out, and he believes he has been poisoned and physically sickened by those seeking to silence him.

"Based on my thirty years' experience and research, I have determined there are thousands of victims who have been targeted by an illegal U.S. government rogue criminal enterprise - military intelligence, probably, tied into CIA and FBI and so forth - that is active 24 hours a day throughout the United States," Gunderson stated in an October 2008 speech posted last fall on YouTube, three years before cancer consumed him.

Mr. Gunderson's assertion of other connected Mafia violence hired by elite politicians in the oil business, banking, media, or elsewhere.

His death and his claims he was being poisoned occurred at the same time I asserted I Edward Paul Donegan was being poisoned by radioolical raw source, 2008.

I assert the Rouge Shadow Government attacked us both to cover-up the JFK assassination the FBI was tied to when the FBI used Malcom X DNA with Glorian Donegan DNA.

GANG STALKING VIGILANTISM RUN BY U.S. GOVERNMENT, SAYS EX-FBI OFFICIAL *

Right to a phone call if arrested

By Andrew Lu Findlaw *

If your legal knowledge comes mostly from watching movies and TV shows, you may believe that you are automatically granted this right. And in many states, this may be the case.

However, the right to make a phone call is typically governed by state law and is not something specifically enumerated in the Constitution. As a result, to learn your exact rights, you may need to talk to an attorney in your state.

For example, a person arrested in Rhode Island does have the enumerated right to make a phone call. The person arrested can make a call to secure a lawyer or to arrange for bail as soon as practicable following an arrest, typically within one hour.

Furthermore, Rhode Island law also provides that the telephone call shall be carried out in a manner that maximizes confidentiality between the person arrested and the call's recipient.

Detention and Imprisonment retrieved from Amnesty International and copied or modified to here

Through our detailed research and determined campaigning, we help fight abuses of human rights worldwide. We bring torturers to justice. Change oppressive laws. And free people jailed just for voicing their opinion.

AMNESTY INTERNATIONAL

Overview

It is easy sometimes to think that the rights of prisoners have little to do with us - that they have somehow exchanged their rights for a life of crime. This is wrong on two counts. Firstly, everyone has the same rights and they can never be taken away, no matter where you are, or what you may have done. Secondly, just because you are in prison, it does not mean you are guilty of a crime - if you were lucky enough to have a trial, it may not have been a fair one.

Since we began in 1961, Amnesty activists have been ready to spring into action for people facing imminent danger in detention. From sending faxes and tweets to making phone calls or taking to the streets. "… The phone calls to the police during my arrest saved me from torture and rape. The police station was so swamped they stopped picking up the phone," says Women of Zimbabwe Arise (WOZA)'s co-founder Jenni Williams.

While there have been thousands of victories, systemic change is harder to come by, and far too many people are still languishing in isolation, incommunicado, in fear.

The problem

There are seven main problems.

1. Prisoners of conscience - someone has not used or advocated violence or hatred but is imprisoned because of who they are (sexual orientation, ethnic, national or social origin, language, birth, colour, sex or economic status) or what they believe (religious, political or other conscientiously held beliefs).
2. Arbitrary detention - being detained for no legitimate reason or without legal process
3. Incommunicado - being detained without access to family, lawyers etc.
4. Secret detention - being detained in a secret location.
5. Inadequate prison conditions - such as overcrowding and prolonged solitary confinement.
6. Unfair trials - trials conducted without ensuring minimum legal process.
7. Torture and other forms of ill-treatment.

Amnesty International is calling for

• No secret detentions.
• No torture or other forms of ill-treatment.
• Rapid and regular access to lawyers, doctors and relatives.
• Effective legal process so that people can challenge their detention and treatment.
• Independent judges.
• Adequate detention conditions. Including an end to prolonged solitary confinement.
• Prompt and independent investigations when someone dies in detention.
• Independent Monitoring bodies make regular visits to detention places.
• Fair trials within a reasonable time or release.
• All prisoners of conscience released without conditions.

The issue in detail

Under international human rights law, no one can be detained without a legitimate reason and, anyone accused of a crime has the right to a fair trial. But in many countries throughout the world, no proper process is followed and no safeguards are in place: such as lawyers present during interrogations; independent doctors on-hand to examine detainees; contact with families and ensuring confessions obtained by torture can never be used as evidence.

Amnesty's Fair Trial Manual is a practical guide to international fair trial standards. It is a vital tool for lawyers, judges and trial observers. It is also used by political prisoners representing themselves in court as a DIY defence guide - such as Albin Kurti who used the Manual to represent himself before a UN tribunal in Kosovo and was released.

Detainees are entitled to the rights and standards enshrined in international law. At the universal level, the main protections are contained in:

- International Covenant on Civil and Political Rights

- UN Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment and its Optional Protocol
- UN Convention for the Protection of All Persons from Enforced Disappearance
- UN Convention on the Rights of the Child
- UN Body of Principles for the Protection of All Persons under any Form of Detention or Imprisonment
- UN Standard Minimum Rules for the Treatment of Prisoners
- UN Rules for the Treatment of Women Prisoners and Non-custodial Measures for Women Offenders ('the Bangkok Rules').
- United Nations Standard Minimum Rules for the Administration of Juvenile Justice ("the Beijing Rules")
- United Nations Rules for the Protection of Juveniles Deprived of their Liberty
- UN Standard Minimum Rules for Non-custodial Measures (the 'Tokyo Rules').

Eugenio Rolando Martínez retrieved from Wikipedia and copied or modified to here

Eugenio Rolando Martínez Careaga (alias Musculito, JULY 8, 1922 - January 30, 2021

Eugenio Rolando Martínez Careaga[1] (alias Musculito, July 8, 1922 - January 30, 2021) was a member of the anti-Castro movement in the early 1960s, and later was one of the five men recruited by G. Gordon Liddy and E. Howard Hunt in 1972 for the Memorial Day weekend Watergate burglary at the Democratic National Committee (DNC) headquarters in Washington, D.C. He later worked as a real estate agent.

Weeks after the initial break-in, on June 17, 1972, the men were arrested by District of Columbia Police inside DNC headquarters during what they said was a second entry into the building to correct problems with the first break-in. Martinez and the others were convicted in the ensuing Watergate scandal. The others were Frank Sturgis, Virgilio Gonzalez, Bernard Barker and James McCord. After completing his 15 month prison term,[3] Martinez was pardoned by President Ronald Reagan in 1983. Martínez was the only person aside from Nixon to receive a pardon for his role in the scandal.

Martinez was portrayed in All the President's Men, the 1976 film retelling the events of the Watergate scandal, by Dominic Chianese.

On August 31, 2016, the conservative watchdog group Judicial Watch obtained CIA internal documents, through a FOIA request, that stated Martinez was a paid asset of the Agency at the time of the break-in. Although his connection to the Agency was acknowledged, until this release the CIA had maintained that his service had ended and he no longer had an association with the Agency for at least two years prior to the incident at the Watergate Hotel. He died on January 30, 2021, at his daughter's home in Minneola, Florida at the age of 98.

On 3RD JULY, 1972, Martinez, Frank Sturgis, Virgilio Gonzalez, Bernard L. Barker and James W. McCord were arrested while removing electronic devices from the Democratic Party campaign offices in an apartment block called Watergate. The phone number of E.Howard Hunt was found in address books of the burglars. Reporters were now able to link the break-in to the White House. Bob Woodward, a reporter working for the Washington Post was told by a friend who was employed by the government, that senior aides of President Richard Nixon, had paid the burglars to obtain information about its political opponents.

In January, 1973, Martinez, Frank Sturgis, E.Howard Hunt, Virgilio Gonzalez, Bernard L. Barker, Gordon Liddy and James W. McCord were convicted of conspiracy, burglary and wiretapping.

Eugenio Martinez now works in the real estate business in Miami, Florida. Spartacus

The adar unit tracking the flights of the u2s we were worried about the soviet missile program and all the defectors we tried to send in were killed and so the u2 came into being and the ci had three stations and oswald worked in the one in japan since the beginning of man tribes and clans and nations have spied on one another across the valleys across the oceans and now across the world we watch for the electronic imprint of the enemy's bombers we listen for the wine of his missiles we send beautiful sophisticated machines over his territory to monitor his coded talk to make inventory of his weapons the very air is full of information for the spies of today we had a mole uh maybe more than one in in the kgb and this mole informed us that we had a mole in our u-2 program so oswald's trip to the soviet union immediately upon leaving marines could have been expected to draw the interest of the kgb to attempt to recruit him or to ask him questions that might have helped us discover the identity of the mole in the youtube program richard nagle is another one of the very curious people who show up in this scenario indicating for sure there was a conspiracy to assassinate president kennedy during the korean war he had been the youngest soldier to receive a battlefield commission to captain he was wounded several times received the purple heart went

on into military intelligence after that and worked for a top secret military intelligence unit called foi field operations intelligence in korea and japan and it was in japan in 1957 58 when nagel was stationed in japan and when oswald was in japan working as a radar operator at the atsugi naval air base that their paths crossed for the first time in tokyo nagel says oswald was photographed by the japanese police approaching the soviet embassy and nagel at the same time had apparently involved oswald in a plot it was a cia plot to get a soviet colonel working for the russian gru intelligence named nikolai rashkin to defect so oswald was trying to cozy up to arashkin in some way and nagel was involved with oswald and a professor in japan named chikaw fujisawa in this early you know intelligence effort in in japan i don't know the whole story of this there were a lot of things nagel would never tell me but it was pretty clear that nagel had what he called a casual but purposeful acquaintanceship with oswald in japan so my assumption is it was related to his oswald's subsequent defection to the soviet union with radar secrets

4 Months Before He Shot JFK, Lee Harvey Oswald Lectured the Jesuits retrieved from National Catholic Register and copied or modified to here

A number of Jesuits who were present later gave testimony to the Warren Commission about Oswald's strange 30-minute talk.

Lee Harvey Oswald

This sounds totally make-believe, but every single word of it is true: On July 27, 1963, less than four months before he assassinated President John F. Kennedy, Lee Harvey Oswald was invited to deliver a lecture to a group of Jesuits in Mobile, Alabama, at their House of Studies.

This, of course, didn't just happen in a vacuum. Oswald's cousin, Eugene Murret, was in formation to become a Jesuit. Since Eugene's parents, Lillian and "Dutz" Murret, were among the only remaining family Oswald had - and they had shared with Br. Eugene his cousin's trouble finding a job since his return from the Soviet Union, as well as the fact that he had a young wife and two small children - Eugene apparently took pity on his younger cousin. In a letter dated July 4, 1963, and forever marked as Warren Commission Exhibit No. 2648, Eugene wrote to his uneducated and poverty-ridden relative, Lee Harvey, saying:

> Here at the [Jesuit] House of Studies during the summer months we have a series of lectures on various subjects given by different persons from the neighboring areas. These subjects usually deal with art, literature, economics, religion, politics, etc.

Oswald, who had never finished high school and was dishonorably discharged from the Marine Corps, knew next to nothing - indeed, nothing at all - of art, literature, economics, or religion.

However, since he had defected to and lived (briefly) in the Soviet Union from 1959-1961, Oswald "knew" a bit about life under a Communist regime. His cousi, Eugene continued in his missive, that:

> We were hoping that you might come over to talk to us about contemporary Russia and the practice of Communism there.

Concerned perhaps that this might amount to a public de-lousing, Eugene double-clutches and becomes a bit more gregarious and expansive:

> Of course we want you to choose whatever topic you like concerning your travels in Russia and to present the talk and its material in a narration of your own observations. In other words, don't feel that it ought to be very formal and theoretical. Also, when I say that the talks usually last for an hour, I don't mean that it has to be that long. This is rather by way of a time-limit.

Oswald, who had appeared on radio in New Orleans espousing his "Marxist-Leninist" views, must have been thrilled at the opportunity to expatiate on his experience in Soviet Russia - especially to a group known for its erudition. While we don't have a written copy of Oswald's response to his cousin's invitation - Oswald was almost functionally illiterate and dyslexic to the point that his extant writings are nearly incomprehensible - on Saturday, July 27, Lee and his wife Marina, rode with his uncle Dutz and aunt Lillian from New Orleans to Mobile to give the talk.

A number of Jesuits who were present gave testimony about Oswald's 30-minute talk. Gerald Posner, author of the acclaimed best-selling ***Case Closed: Lee Harvey Oswald and The Assasination of JFK***, sums up the evening in these words:

> Oswald gave a half-hour talk that evening. Those present later described him as 'very tense and high-strung'. He confirmed that he was a Marxist, although he admitted that he was disillusioned with the USSR. In fact, he said he was against most forms of organized government. [Oswald said:] 'Capitalism doesn't work, communism doesn't work. In the middle is socialism, and that doesn't work, either.'

Spoken like a true, and truly uneducated, misanthrope.

That last recollection is of Jesuit Father Robert J. Fitzpatrick, who was at the event (and later interviewed by the Warren Commission).

While the idea of having his cousin speak on Communism may have been the brainchild of the young, in-formation, Jesuit-to-be Eugene Murret, the all-clear came from his superior.

Other Jesuits had more vivid memories of the Oswald talk. Fr. Malcom Mullen thought that Oswald was "a college graduate." (In reality Lee had barely finished the 8th grade and had been shuttled between a half-dozen schools from New Orleans to Dallas, to New York to Fort Worth before trying to lie his way into the Marines at age 17.) Significantly, Fr. Mullen didn't bother to stick around for the "question-and-answer" session that followed Oswald's talk.

Eugene Murret, who was never very close to his cousin Lee Harvey - they were seven years apart in age - might have left the talk alone once it was over. (It was obviously not a success and, much to Oswald's chagrin he received no payment.) However, in a letter dated Aug. 22, 1963, Br. Eugene effusively noted to his 24-year-old, unemployed, gun-toting, wife-beating, mentally unstable cousin:

> I was speaking with one of our professors who heard the talk you gave to us. He thought that you made a number of good points. One of these was your criticism of speculation in the capitalist system. He equated stock speculation with gambling. It seems to be another form of it. Another point was your criticism of exploitation which occurs in capitalism.

However here the fulsome praise of Oswald's peroration stops and his cousin delicately mentioned that, "On the other hand, the professor to whom I am referring thought that you hadn't made sufficient application." The final paragraph of the final letter from the Jesuit-to-be to the assassin-to-be notes that:

> The Popes, beginning with Leo XIII in 1891 and continuing up to the present day [John XXIII] have given considerable thought and energy in trying to think through to a solution of economic and social and political abuses. You might get some ideas from the enclosed article as to how the Popes have been trying to work out the problem as well as some stimulation to your own thinking on the matter.
>
> That's about it for now. Give my regards to Marina. Sincerely, Gene.

Oswald, who could barely read, and had absolutely no interest in religion - though he once bragged to a fellow Marine that "the best religion is Communism" - certainly left the enclosed articles unread.

Eugene Murret left the Jesuits five years later. Attempts to contact him and his family for contact on this piece went unreturned - but one can hardly blame them.

His latest book is Now Chiefly Poetical, and he co-edited John Paul II in the Holy Land: In His Own Words. His work has been anthologized in Wild Dreams: The Best of Italian-Americana, and he was awarded the Foley Poetry Prize from America Magazine. A graduate of the University of Notre Dame, he regularly attends Yale University's School of Management Publishing Course.

Pope Leon XIII (Italian: Leone XIII; born Vincenzo Gioacchino Raffaele Luigi Pecci;[b] 2 March 1810 - 20 July 1903) was the head of the Catholic Church from 20 February 1878 to his death in 1903. Living until the age of 93, he was the oldest pope (with the exception of Pope Benedict XVI as pope emeritus), and had the fourth-longest reign of any, behind those of Pius IX (his immediate predecessor) and John Paul II.

He is well known for his intellectualism and his attempts to define the position of the Catholic Church with regard to modern thinking. In his famous 1891 encyclical Rerum novarum, Pope Leo outlined the rights of workers to a fair wage, safe working conditions, and the formation of trade unions, while affirming

the rights of property and free enterprise, opposing both socialism and laissez-faire capitalism. With that encyclical, he became popularly titled as the “Social Pope” and the “Pope of the Workers”, also having created the foundations for modern thinking in the church’s social doctrine, influencing the thoughts of his successors. He influenced Mariology of the Catholic Church and promoted both the rosary and the scapular. Upon his election, he immediately sought to revive Thomism, the theology of Thomas Aquinas, desiring to refer to it as the official theological and philosophical foundation for the Catholic Church. As a result, he sponsored the Editio Leonina in 1879.

Leo XIII is particularly remembered for his belief that pastoral activity in the socio-political field was also a vital mission of the church as a vehicle of social justice and maintaining the rights and dignities of the human person.
